Brown, Canada Land Inventory**

Climates Of Canada:

The Climates of Canada David W. Phillips, Canada. Environment Canada, 1990 Teacher resource for Senior High Science Science 10 1992 2009

The Surface Climates of Canada William G. Bailey, T. R. Oke, Wayne R. Rouse, 1997

Climate particularly physical and surface climate plays an intimate role in landscape pattern and diversity in Canada Focusing on climatic processes at and near the earth's surface and on how these processes interact with the natural and human modified landscapes The Surface Climates of Canada goes beyond mere descriptive climatology to reveal the interrelationship between Canada's surface and its climate In the opening chapters contributors lay out the large scale context of the physical climate of Canada introducing the processes balances and dynamic linkages between the surface and atmosphere that create and maintain the diversity of surface climates found in Canada as well as outlining the nature of the physical processes that operate near the ground's surface Individual chapters are dedicated to snow and ice the almost universal surface cover in Canada and the other major natural surface environments of Canada ocean and coastal zones fresh water lakes wetlands arctic islands low arctic and subarctic lands forests and alpine environments The final part of the book considers those surface environments that have been strongly influenced by human activity such as agricultural lands and urban environments and examines the prospects for future climate change Bringing together for the first time a wide range of scholarship by leading climatologists The Surface Climates of Canada will be an indispensable tool for understanding Canada's surface climates and the processes responsible for their creation and control

Surface Climates of Canada Timothy R. Oke, W.G. Bailey, Wayne Rouse, 1998-01-15 In the opening chapters contributors lay out the large scale context of the physical climate of Canada introducing the processes balances and dynamic linkages between the surface and atmosphere that create and maintain the diversity of surface climates found in Canada as well as outlining the nature of the physical processes that operate near the ground's surface Individual chapters are dedicated to snow and ice the almost universal surface cover in Canada and the other major natural surface environments of Canada ocean and coastal zones fresh water lakes wetlands arctic islands low arctic and subarctic lands forests and alpine environments The final part of the book considers those surface environments that have been strongly influenced by human activity such as agricultural lands and urban environments and examines the prospects for future climate change Bringing together for the first time a wide range of scholarship by leading climatologists The Surface Climates of Canada will be an indispensable tool for understanding Canada's surface climates and the processes responsible for their creation and control Contributors include Brian D Amiro AECL W G Bailey Simon Fraser Richard Bello York Terry J Gillespie Guelph Barry E Goodison Atmospheric Environment Service F Kenneth Hare emeritus professor Toronto L D Danny Harvey Toronto Owen Hertzman Dalhousie Peter M Lafleur Trent J Harry McCaughey Queen's Linda Mortsch Environment Canada R Ted Munn Toronto D Scott Munro Toronto Atsumu Ohmura Swiss Federal Institute of Technology Timothy R Oke UBC John W Pomeroy Environment Canada Alexander W
