Clinical Integration Strategies And Practices For Organized Delivery Systems:

Clinical Integration Mary Tonges, 1998-06-16 Reengineering Organized Delivery Systems The Center for Case Management Managed care pressures are forcing the creation of larger and larger delivery systems but little is known about how to coordinate clinical services within these complex systems This ground breaking resource outlines six specific mechanisms to successfully accomplish clinical integration and narrow the gap between those who manage patient care services and those who plan overall health systems Written by experts executives doctors and nurses the book offers down to earth guidance and tested strategies for creating and improving clinical integration Throughout the book the authors include vivid case examples as well as illustrative tables diagrams and figures Tonges book should be required reading in all health care administration programs Under one cover this dynamic up to the moment book shows how clinical integration can and must be achieved in today's managed care environment Barbara Barnum RN Ph D FAAN professor of Clinical Nursing Columbia University School of Nursing Mohanty V. St. John Heart Clinic, S.C., 2005 Improving Health Care: A Dose of Competition: A Report by the Federal Trade Commission and the Department of Justice, **The Integrated Behavioral Health Continuum** Laurel J. Kiser, Paul M. Lefkowitz, Lawrence L. Kennedy, 2008-11-01 Until recently behavioral health was defined within the strict dichotomy of inpatient and outpatient care a dichotomy that failed to mirror the range and complexity of human experience and clinical needs Today's integrated system renders this dichotomy obsolete Instead service delivery integration processes offer an organized system of care rooted in a common vision and defined by processes intended to promote continuity and quality of care coordination of efforts efficiencies of operation and seamless patient movement through an otherwise bewildering array of health care services Unique in the literature this volume brings together distinguished clinicians and policymakers who focus on the operational aspects of developing state of the art integrated delivery systems History and concept Why we need integrated health care delivery systems including a model of service delivery integration that incorporates current barriers e.g. ambiguous roles and responsibilities and lack of strategic alignment how to design integrated delivery systems improving clinical outcomes achieving fiscal and operating efficiencies and aligning clinical and fiscal incentives Structural foundations Access to the system of care for patients payors and employers how to design level of care criteria eight strategies that help clients move along the continuum how to define level of care in today's managed care world and the process of following therapeutic processes i.e. philosophies procedures and practices used to create or support recovery and wellness across the continuum Administrative and management processes How to reorient staff toward minimizing barriers and making the patient central to the system documentation information management and reimbursement rates and rate structures risk assumption current research and its enormous potential to improve every aspect of care quality assessments based on examining the driving forces behind the needs for monitoring and evaluating quality and outcomes and the relation of behavioral health care systems which seek to fully integrate clients and

families into the fabric of their community and culture to other systems A case vignette that highlights from the consumer s viewpoint the vital role of self help during an episode of hospitalization and a discussion of future directions in integrated behavioral health care round out this remarkable volume With its wealth of strategic and nuts and bolts information useful for alliances and single entities alike on how to harness operational forces in establishing an effective integrated behavioral health continuum this volume will be welcomed by those who deliver direct services psychiatric professionals and those who administer and manage the integrated financing and delivery of quality care from public U S government agencies and private managed care and insurance providers sectors alike Health Data Quest Jill Lenk Schilp,Roy E.
