TURN OF THE CENTURY EXTREME SPORT The distant towers of the Great New and Cloister Courts looming against the dark sky lit by the flickering lamps far below the gradations of light and shadow marked by an occasional moving black speck seemingly in another world the sheer wall descending into darkness at his side above which he has been half suspended on his long ascent the almost invisible barrier that the battlements from which he started seem to make to his terminating in the Cloisters if his arm slips all contribute to making this deservedly esteemed the finest view point in the College Alps By turns sage and foolhardy the advice contained within represents the cumulative experience of three inquisitive ambitious and daring men the authors of the three editions of The Roof Climber's Guide to Trinity and their accomplices Geoffrey Winthrop Young John Hurst and Richard Williams were each their generations luminaries in an historic sport now known as Night Climbing one by its very nature sparsely populated and largely anonymous THE ORIGINAL NIGHT CLIMBING CLASSIC This Omnibus Edition contains the full texts and images from each of those editions as well as the appendices to the First Edition and features a special introduction by Richard Williams author of the Third Edition in which he details the collected wisdom and history of Night Climbing and finally removes the cloak of anonymity that has until now protected the identities of those first intrepid nocturnal explorers Although many may balk at the methods described in the narrative few could question the diligence spent obtaining that content or deny the impeccable locution and erudition displayed in presenting the illicit achievements in this cult classic As the Guide itself posits its existence will have been justified if it has succeeded in providing the young stegophilist making his first night venture upon the Trinity Roofs with a clue however poor to the creditable unravelling of their somewhat complex mazes

*Unjustifiable Risk?* Simon Thompson, 2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession *Unjustifiable Risk* is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while

competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today s climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment Unjustifiable Risk was shortlisted for the Boardman Tasker prize in 2011
