Beethoven 1806 Mark Ferraguto,2019-08-27 Beethoven 1806 examines a banner year in the creative life of Ludwig van Beethoven Drawing on theories of mediation and a wealth of primary sources it explores the specific contexts in which the music of this year was conceived composed and heard      The Immortal Beethoven Compendium ,      **Beethoven's Chamber Music in Context** Angus Watson,2012 A noted violinist and conductor Watson is particularly well suited for his chosen task outlining the historical context and character of more than 50 of the chamber works that Beethoven composed during his years in Vienna Avoiding the pitfalls of becoming too critical or academic the author characterizes each composition in general terms only and does not discuss changing styles of performance Instead Watson provides information on a work s historical background and character and on the musical points of interest in each movement He pays special attention to the influence of Beethoven s large scale compositions on his chamber music and on the composer s increasing mastery of improvisation Filling a hole in scholarship on Beethoven s compositions this book will be greatly appreciated by professional and amateur musicians      Beethoven's Dedications Artur Pereira,2020-12-30 The dedication of a piece of music

is a feature generally overlooked but it can reveal a great deal about the work the composer the society and the music world in which the composer lived This book explores the musical biographical and sociological aspects of the practice of dedicating new compositions in the late 18th and early 19th centuries and makes a significant contribution towards a better understanding of the impact these tributes had on Beethoven s life and work and their function within the context of the musical cultural and economic environments in which they appeared As the first of its kind this study demonstrates that as a result of their different functions published dedications and handwritten inscriptions are distinct from one another and for that reason they have been classified in different categories This book therefore challenges the idea of what exactly can be termed as a dedication a concept which extends far beyond the dedication of musical works

**Beethoven's Lives** Lewis Lockwood,2020 Beethoven s Lives will be required reading for anyone interested in understanding how Beethoven biography has evolved through the ages When Ludwig van Beethoven died in March 1827 the world of music felt an intense loss The composer s funeral procession was one of the largest Vienna had ever witnessed and the poet Franz Grillparzer s eulogy brought the tensions between the composer s life and music into sharp focus the deaf and aloof genius the alienated and eccentric artist unable to form a lasting relationship with a woman but reaching out to mankind These apparent contradictions were to attract many Beethoven biographers yet to come Here Lewis Lockwood himself a much lauded Beethoven biographer tells the story of Beethoven biography from the earliest attempts made directly after the composer s death to the present day Beethoven s Lives casts a wide net tracing the story of Beethoven biography from Anton Schindler as biographer and falsifier through the authoritative Alexander Wheelock Thayer and down to the present The list includes Gustav Nottebohm the first scholar to study Beethoven s sketchbooks With his work biography could begin to reflect on the inner life of the artist as expressed in his music and in this sense sketchbooks could be seen as artistic diaries Even Richard Wagner thought of writing a Beethoven biography and the late nineteenth and early twentieth century saw the emergence of French and English traditions of Beethoven biography In the tumultuous twentieth century with world wars and fractured politics the writing of Beethoven biography was sometimes caught up in the storm By bringing the story down to our time Lewis Lockwood identifies traditions of Beethoven biography that today s scholars and writers need to be aware of As Lockwood shows each biography reflects not only on the individual writer s knowledge and interests but also his inner sense of purpose as each writer works within the intellectual framework of his time

LEWIS H LOCKWOOD is one of the leading authorities on Beethoven worldwide Having taught at Princeton and Harvard some of his key Beethoven publications include *Beethoven The Music and the Life* Norton 2003 translated into many languages as well as *Beethoven s Symphonies An Artistic Vision* Norton 2015 and with the Julliard String Quartet *Inside Beethoven s Quartets History Performance Interpretation* Harvard University Press 2008 He is known for his studies of Beethoven s life and work including the composer s autograph manuscripts and sketchbooks
