

Understanding and Responding to Aggressive Behaviour

Aggression can take both physical and verbal forms.

Physical aggression may include such actions as kicking, hitting, biting or pushing.

Verbal aggression can include tantrums, shouting, name-calling, making threats and excluding others.

When a child displays this type of behaviour it may be the result of frustration, the desire to avoid doing something, to seek connection or the child believing they are under a threat of some kind.

Aggressive behaviour can also be an impulsive, spur of the moment reaction to an event or a proactive, deliberate act, such as pushing another child over so they can play with the toy they had.

Other reasons for aggressive behaviour may be a child's inability to express their emotions or needs, or the result of environmental and psychological factors, such as learned behaviour or traumatic experiences.

Recognise the underlying reasons for aggressive behaviour and respond positively to encourage the child to express their emotions.

1. Acknowledge the child's feelings and respond positively to support them to express their emotions.

2. Remain calm and speak in a neutral, non-judgemental tone.

3. Avoid using physical force or punishment.

4. Do not engage in physical or verbal arguments with the child.

5. Encourage the child to express their emotions in a positive way.

6. Help the child to identify their emotions.
