Agriculture in Nicaragua World Bank,2003 [Agriculture in Nicaragua](#) ,2003 **Agriculture in Nicaragua** World Bank,2003 The report reviews basic growth as being one of four pillars for Nicaragua s poverty reduction strategy The well being of the rural poor will continue its dependence on to a great extent agriculture The study analyzes main agricultural development aspects and stipulates the broad basic growth may be enhanced by strengthening agricultural competitiveness yet export growth is key to economic growth and requires immediate actions within coherent strategies illustrated through the case of coffee within the proposed strategy The report also identifies market forces regarding productivity restrictions of the rural sector and suggests medium and long term solutions Finally the report addresses risk management including a description of some promising pilot projects [Nicaragua](#) World Bank,2002 [Nicaragua : Promoting Competitiveness and Stimulating Broad-based Growth in Agriculture](#) World Bank. Latin America and the Caribbean Regional Office,2002

Nicaragua ,2002 **Nicaragua** Weltbank,2013 The report argues that Nicaragua s best hope for sustained growth and poverty reduction probably lies with agricultural exports which have the potential to gain from opportunities in world markets Despite the small share of farmland devoted to the production of exports 25 percent of harvested area the total trade of agricultural goods including the value of both imports and exports accounted for almost eighty five percent of agricultural GDP in 1998 This is high relative to several countries in the area But most likely the most promising is the export performance of non traditional agricultural products The report accords greatest emphasis to improving competitiveness and recommends giving this goal highest priority To this end four areas for action to improve competitiveness have been identified modernizing agribusiness promoting agricultural exports improving the effectiveness of public spending and strengthening public private partnerships These measures will also have to be complemented by sustained ongoing efforts to improve factor market efficiency suggesting improvements to facilitate rural finance boost access to technology improve land productivity and raise labor market s human capital In addition the significant risks faced by the country s agricultural sector natural disasters and economic shocks call for improved agricultural risk management through innovative insurance products and credit services as well as improved warning systems to forecast weather related disasters *The Puzzle of Latin American Economic Development* Patrice Franko,2018-09-07 Thoroughly revised and updated this foundational text provides the basic economic tools for students to understand the problems facing the countries of Latin America In the fourth edition Patrice Franko analyzes challenges to the neoliberal model of development and highlights recent macroeconomic changes in the region Including charts and tables with the most current data available the book also offers a wealth of new boxed discussions and vignettes [The Credibility of Microcredit](#) ,2013-04-05 Pullulating from a handful of isolated experiments in the 1970s to a sophisticated network of over 140 million borrowers today microfinance is a synecdoche for global trends toward market based solutions to social problems But in recent years economic crises and political attacks have raised

doubts about its efficacy begetting polemic debates and sometimes baseless assertions from both supporters and detractors of microfinance The Credibility of Microcredit offers a more objective assessment of the merits and shortfalls of microfinance around the world by way of interdisciplinary research It features works from leading researchers in the field of microfinance as well as new names who complement one another's work with a variety of methods and theoretical approaches Contributors include Britta Augsburg Gwendolyn Alexander Tedeschi Jonathan Bauchet Cyril Fouillet Soren Hauge Dean Karlan Jonathan Morduch Michael Pisani Sujata Shetty Elisabeth Vik and David Yoskowitz Reprint of some articles published in the journal Perspectives on Global Development and Technology 2010 volume 9 No 3 4 *Using an Asset-based Approach to Identify Drivers of Sustainable Rural Growth and Poverty Reduction in Central America* Paul Siegel, 2005 The asset based approach considers links between households productive social and locational assets the policy institutional and risk context household behavior as expressed in livelihood strategies and well being outcomes For sustainable poverty reducing growth it is critical to examine household asset portfolios and understand how assets interact with the context to influence the selection of livelihood strategies which in turn determine well being Policy reforms can change the context and income generating potential of assets Investments can add new assets or increase the efficiency of existing household assets and also improve households risk management capacity to protect assets After all is said and done a household's asset portfolio will determine whether growth and poverty reduction can be achieved and sustained over time The asset based framework is amendable to different analytical techniques Siegel suggests combining quantitative and qualitative spatial and household level analyses and linked spatial and household level analyses to deepen understanding of the complex relationships between assets context livelihood strategies and well being outcomes This paper a joint product of the Environmentally and Socially Sustainable Development Vice Presidency and the Rural Development Family Latin America and the Caribbean Region is part of a larger effort in the Bank to strengthen analyses and strategies for rural development and address policy issues and investment priorities World Bank web site *The Global Hunger Crisis* Majda Bne Saad, 2013-03-06 For billions across the world the daily challenge is to find enough to eat to survive Hunger is on the rise globally with more than 1.2 billion people suffering from food insecurity and poverty and rising food prices increasingly jeopardising access to food But what are the causes for global hunger And as the global population soars what are the key food challenges In this deeply informative study Majda Bne Saad identifies the causes for global hunger which are embedded in the current economic system apportioning blame for global hunger on the West's continuing support for and subsidies to biofuels which have created persistent and formidable new demands for food commodities Saad proposes we fight back arguing for a second green revolution to grow more food and by analysing the factors constraining low income nations from achieving food security she considers policies which could generate income and enhance individuals entitlement to food [Grassroots Struggles for Sustainability in Central America](#) Lynn Horton, 2007 In recent years sustainable development has emerged as a central goal of the World Bank

and grassroots activists alike In *Grassroots Struggles for Sustainability in Central America* Lynn R Horton explores the implications of this new often contested discourse and related policies for Central America s rural and indigenous poor Drawing on the testimony of leaders and residents of three communities in Nicaragua Costa Rica and Panama Horton explores grassroots assumptions values and practices of sustainable development and in particular the ways in which they overlap with or challenge international financial institutions discourse of sustainability With a comparative empirical approach Horton also analyzes dominant practices linked to sustainable development neoliberal reforms project interventions and environmental protection She reveals how these practices support or undermine economic cultural and political opportunities for the rural and indigenous poor and impact these communities advancement of their own visions of sustainability Finally the author explores processes of empowerment that enable communities to articulate and put into practice local visions of sustainability which contribute toward broader social and structural transformations *Grassroots Struggles for Sustainability in Central America* will interest sociologists anthropologists and others who study the theory and practice of sustainable development
