American Sublime:

American Sublime Rob Wilson, 1991 Tracing ideas of the sublime in American literature from Puritan writings to the postmodern epoch Rob Wilson demonstrates that the North American landscape has been the ground for political as well as aesthetic transport He takes a distinctly historical approach and explores the ways in which experiences of the American landscape instill desire for other kinds of vastness self expansion national expansion and American political power As Wallace Stevens put it the American will takes dominion everywhere Wilson sets the stage for his genealogy with a discussion of the classical notion of the sublime taken primarily from Longinus and the ways that notion was pragmatically transformed by its American setting and appropriated by American poets He follows this transformation in successive chapters on the Puritans Bradstreet through the Naturalists Livingston and Bryant from the epitome of the American sublime Whitman to the greatest of the modernists Stevens and its present day incarnations Ashbery and others Writing today under the sign of Hiroshima contemporary writers must struggle with the concept of the sublime within a context of spiralling technologies and nuclear force that calls into question the long standing American sacralization of power Throughout *American Sublime* Wilson engages in an original theoretical inquiry into the sublime as term topic complex and controversial idea in literary and critical history Furthermore he undertakes his historical study from an avowedly postmodern perspective one that draws on and extends the work of Jameson Lyotard Foucault Lentricchia Harold Bloom and others *The American Renaissance* Harold Bloom, 2009 Examines the literary period of the nineteenth century known as the American Renaissance that includes the work of Herman Melville Walt Whitman Edgar Allan Poe and others *Sixteen Modern American Authors* Jackson R. Bryer, 1990 Praise for the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains *American Studies* **American Foundational Myths** Martin Heusser, Gudrun Grabher, 2002 **Aesthetic Transcendentalism in Emerson, Peirce, and Nineteenth-Century American Landscape Painting** Nicholas Guardiano, 2016-12-21 Aesthetic Transcendentalism is a philosophy endorsing the qualitative and creative aspects of nature Theoretically it argues for a metaphysical dimension of nature that is aesthetically real pluralistic and prolific It directs our attention to the rich complexity of immediate experience the possibility of discovering new aesthetic features about the world and the transformative potential of art as an organic expression This book presents the philosophy in its relationship to its historical roots in the philosophic and artistic traditions of nineteenth century North America In this multidisciplinary study Nicholas L Guardiano brings together a philosophic and literary figure in Ralph Waldo Emerson the scientifically minded philosopher Charles S Peirce and the plastic arts in the form of American landscape painting Guardiano evaluates this constellation of

philosophers and artists in global perspective as it relates to other historical theories of metaphysics and aesthetics while simultaneously performing a cultural analysis that identifies an essential feature of the American mind Aesthetic Transcendentalism thus possesses abiding significance for our vital interactions with nature daily experiences and contemplations of great works of art Aesthetic Transcendentalism in Emerson Peirce and Nineteenth Century American Landscape Painting will be of interest to scholars of American philosophy and American art history especially specialists of Charles S Peirce Ralph Waldo Emerson and the Hudson River School painters It will also appeal to philosophers working on systematic metaphysical theories of nature

Amy Sherald Sarah Roberts, 2024-11-19 Amy Sherald's work life and significance for American art as revealed in her powerful figurative paintings of Black subjects Bringing together nearly all of her artwork to date this lavishly illustrated volume situates the work of Amy Sherald b 1973 within the context of American realist and figurative painting Encompassing the full arc of her career from her poetic early works to the distinctive figure paintings and portraits that have become her hallmark Amy Sherald *American Sublime* unfolds her method of selecting individuals she meets on the street and using facial expression body language and clothing choices to create paintings that transcend portraiture and expand the canon of American art Essays by curators Sarah Roberts Rhea Combs and Rujeko Hockley poet and writer Elizabeth Alexander artist Dario Calmese and renowned scholar Deborah Willis contextualize and illuminate Sherald's creation of a new form of imaginative portraiture Often depicting her subjects skin in gray monochrome surrounded by few markers of place time or context beyond the clothes they wear Sherald challenges the assumption that Black life is inextricably bound with struggle creating images that engage in more expansive thinking about race and representation and the wide open possibilities and complexities of every individual Whether a passerby or the former first lady Michelle Obama Sherald's subjects are at ease with themselves the world and one another Published in association with the San Francisco Museum of Modern Art Exhibition schedule San Francisco Museum of Modern Art November 16 2024 March 2025 Whitney Museum of American Art April August 2025 National Portrait Gallery Washington DC September 2025 January 2026

Another Throat Ryan Sharp, 2024-10-25 The early twenty first century has seen a sharp rise in Black US poets employing the mask of persona often including and interrogating archival materials as they do so While some have observed this rise and noted its connection to historical figures Ryan Sharp explores it more deeply as a project based historical and poetic practice Sharp examines its sustained use of historical persona and capacity for conjuring Black speakers as a countermeasure against the archival silencing and misrepresentation of Black voices and histories a tactic he theorizes as poetic fabulation through the poetry of Elizabeth Alexander Cornelius Eady Adrian Matejka Patricia Smith Natasha Trethewey and Frank X Walker This poetic practice is not only about looking back but about critically and creatively reimagining the past to expand the possibilities for Black presents and futures Through his argument Sharp demonstrates how the unique aesthetic and rhetorical license afforded to poetry along with the interiority of persona empowers such

historically minded projects to be concurrently invested in the curation of Black narratives and identities

American Sublime Andrew Wilton, Timothy J. Barringer, Tim Barringer, 2003-07-02 The painters who came to be known as the Hudson River School Thomas Cole Asher B Durand Frederic Edwin Church Jasper Cropsey Sanford Robinson Gifford and others found inspiration in our young country's natural wonders and were the first to paint many of its still wild vistas As America was settled and the wilderness receded their successors most notably Albert Bierstadt and Thomas Moran carried their quest for the sublime to the Far West communicating its breathtaking grandeur in brilliant views of Rocky Mountain peaks roaring waterfalls and vast canyons Within a single generation these artists established the dramatic approach to American landscape painting that is celebrated in this stirringly beautiful book The freshness of their vision the intensity of their invention and the energy of their execution were all born of the urgency these artists sensed in the life of America itself Published to accompany a major transatlantic exhibition *American Sublime rejoices in America the Beautiful* as seen in some of the country's most glorious landscape paintings It contains a fully illustrated catalogue of all the paintings in the exhibition with more than one hundred color plates including three gatefolds Biographies of the artists are included and thoughtful and elegantly written essays cast new light on their ambitions and achievements The lucid text places American landscape painting in the context of the international art world and of the European landscape tradition And it explores ideas of national identity and empire in America looking in particular at how these landscapes whether real or imagined reflect Americans hopes and fears for their country As a tribute to some of our most important American artists and the land that inspired them this stunningly illustrated book will have a deep and wide appeal

American Errancy Justin Quinn, 2005 The link between Romantic individualism and ideological contexts has preoccupied much criticism of American literature in the last twenty years For the most part critics arraign this tradition suggesting that the writers abscond from difficult political dilemmas to the realm of transcendence In consequence the sublime as category for thinking about literary texts has been largely abandoned Ralph Waldo Emerson's transcendence is considered at best naive at worst as providing the nascent corporate capitalism of the late nineteenth century with an iconography with which to execute its agenda
