Americans at War William J. Koenig, 1980 Colonial Wars The Revolutionary War The War Of 1812 The Mexican War Civil War Spanish American War World War I World War II Korea And Vietnam In Pictures And Text *Those Who Have Borne the Battle* James Wright, 2012-05-01 At the heart of the story of America's wars are our citizen soldiers those hometown heroes who fought and sacrificed from Bunker Hill at Charlestown to Pointe du Hoc in Normandy and beyond without expectation of recognition or recompense Americans like to think that the service of its citizen volunteers is and always has been of momentous importance in our politics and society But though this has made for good storytelling the reality of America's relationship to its veterans is far more complex In *Those Who Have Borne the Battle* historian and marine veteran James Wright tells the story of the long often troubled relationship between America and those who have defended her from the Revolutionary War to today shedding new light both on our history and on the issues our country and its armed forces face today From the beginning American gratitude to its warriors was not a given Prior to World War II the prevailing view was that as citizen soldiers the service of its young men was the price of citizenship in a free society Even Revolutionary War veterans were affectionately but only temporarily embraced as the new nation and its citizens had much else to do In time the celebration of the nation's heroes became an important part of our culture building to the response to World War II where warriors were celebrated and new government programs provided support for veterans The greater transformation came in the wars after World War II as the way we mobilize for war fight our wars and honor those who serve has changed in drastic and troubling ways Unclear and changing military objectives have made our actions harder for civilians to stand behind a situation compounded by the fact that the armed forces have become less representative of American society as a whole Few citizens join in the sacrifice that war demands The support systems seem less and less capable of handling the increasing number of wounded warriors returning from our numerous and bewildering conflicts abroad A masterful work of history *Those Who Have Borne the Battle* expertly relates the burdens carried by veterans dating back to the Revolution as well as those fighting today's wars And it challenges Americans to do better for those who serve and sacrifice today

Kurt Piehler, 2004-05-17 Wars do not fully end when the shooting stops As G Kurt Piehler reveals in this book after every conflict from the Revolution to the Persian Gulf War Americans have argued about how and for what deeds and heroes

wars should be remembered Drawing on sources ranging from government documents to Embalmer s Monthly Piehler recounts efforts to commemorate wars by erecting monuments designating holidays forming veterans organizations and establishing national cemeteries The federal government he contends initially sidestepped funding for memorials thereby leaving the determination of how and whom to honor in the hands of those with ready money and those who responded to them In one instance monuments to Yankee heroes erected by the Daughters of the American Revolution were countered by immigrant groups who added such figures as Casimir Pulaski and Thaddeus Kosciuszko to the record of the war Piehler argues that the conflict between these groups is emblematic of the ongoing reinterpretation of wars by majority and minority groups and by successive generations Demonstrating that the battles over the Vietnam Veterans Memorial are not unique in American history Remembering War the American Way reveals that the memory of war is intrinsically bound to the pluralistic definition of national identity
