**The Crisis of America's Cities** Randall Bartlett, 2015-05-20 An original work on American cities and the ongoing urban crisis Using the metaphor of the socially constructed organization of space Bartlett takes a broad view of the evolution of urban America from its historical roots to the present he then examines the way in which current policies have responded to and affected the organization of space covering housing transportation government and other urban problems He concludes with a look to the future of American cities how they will impact and be impacted on by changing commercial and labor markets by the problems of poverty and cultural change In an epilogue he explores possible ways to overcome the social dilemmas while recognizing the difficulty of this undertaking A thoroughly unique perspective to the study of cities this book is about how space is used in America and how it changes as the logic of location evolves historically Starting with the assumption that cities are fundamentally unnatural phenomena it unravels the interactions of technological advances that have made them possible and policies that have given them shape

McDonald, 2011-06-23 Many cities have a rich past No one knows if many have a future Richard C Longworth Caught in the Middle 2007 p 28 In the last six decades no stagnant or decaying city has been globally or significantly saved never David H McDonald More and more federal and state governments are growing their already out of control financial problems Cities are on their own to sink or swim now more than ever David H McDonald Only two states in the nation have over time lost population If the states are gaining population but the cities are losing then it is the cities fault David H McDonald Occasionally a city will usually by accident back into attempting growth in the right manner It always works David H McDonald Virtually no city has a workable vision of how to even achieve stability let alone a return to vibrancy This book presents such a vision and a clear path to beginning the process of stabilization and growth David H McDonald Whatever is going to save your cities it won't be government Both political parties are largely trapped in the past driven by a desire to protect old sacred cows
