Americas Wars:

America's Wars Alan Axelrod, 2002-04-15 This book provides information on every significant recorded conflict in American history from Bunker Hill to the Bataan Peninsula from Antietam to Afghanistan The book sheds light on the underlying causes of each conflict and offers insight and perspective on the conduct and historical impact of more than 100 armed struggles Dust jacket

America's Wars in Asia Philip West, Steven I. Levine, Jackie Hiltz, 1998 Even though the cultural approach concerns itself with the local and the particular rather than with the abstract and universal it is inherently comparative Moreover it also relocates each war in the historical and cultural experiences of Asian countries themselves rather than seeing the war as merely a conflict between the United States and Asian nations *The American Culture of War* Adrian R. Lewis, 2006-12-21 The American Culture of War presents a sweeping critical examination of every major American war since 1941 Timely incisive and comprehensive it is a unique and invaluable survey of over sixty years of American military history

Curating and Re-curating the American Wars in Vietnam and Iraq Christine Sylvester, 2019 We have long saved and curated objects from wars to commemorate the war experience These objects appear at national museums and memorials and are often mentioned in war novels and memoirs Through them we institutionalize narratives and memories of national identity as well as international power and purpose While people interpret war in different ways and there is no ultimate authority on the experiences of any war curators of war objects make different choices about what to display or write about none of which are entirely problematic good or accurate This book asks whose vantage points on war are made available and where for public consumption it also questions whose war experiences are not represented are minimized or ignored in ways that advantage contemporary militarism Christine Sylvester looks at four sites of war memory the National Museum of American History the Vietnam Veterans Memorial Arlington National Cemetery and selected novels and memoirs of the American wars in Vietnam and Iraq to consider the way war knowledge is embedded in differing sites of memory and display While the museum shows war aircraft and a laptop computer used by a journalist covering the American war in Iraq visitors to the Vietnam Memorial or Arlington Cemetery find more prosaic and civilian items on view such as baby pictures slices of birthday cake or even car keys In addition memoirs and novels of these wars tend to curate ghastly horrors of wars as experienced by soldiers or civilians For Sylvester these sites of war memory and curation provide ways to understand dispersed war authority and interpretation and to consider which sites invite viewers to revere a war and which reflect personal experiences that show the undersides of these wars Sylvester shows that scholars policymakers and other citizens need to consider different types of situated memory and knowledge in order to fully grasp war rather than idealize it

[American War Plans, 1890-1939](#) Steven T. Ross, 2013-09-13 By the close of the 19th century the United States was no longer a continental power but had become a nation with interests that spanned the globe from the Caribbean to China Consequently the country faced a new set of strategic concerns ranging from enforcing the Monroe

Doctrine to defending the Philippines As a result of the United States new geostrategic environment the armed services had to establish a system for the creation of war plans to defend the country's interests against possible foreign aggression A Joint Army and Navy Board established in 1903 ordered the creation of war plans to deal with real and potential threats to American security Each major country was assigned a colour Germany was Black Great Britain Red Japan Orange Mexico Green and China Yellow War plans were then devised in case Washington decided to use force against these or other powers

War and Independence In Spanish America Anthony McFarlane,2013-10-15 During the period from 1808 to 1826 the Spanish empire was convulsed by wars throughout its dominions in Iberia and the Americas The conflicts began in Spain where Napoleon's invasion triggered a war of national resistance The collapse of the Spanish monarchy provoked challenges to the colonial regime in virtually all of Spain's American provinces and colonial demands for autonomy and independence led to political turbulence and violent confrontation on a transcontinental scale During the two decades after 1808 Spanish America witnessed warfare on a scale not seen since the conquests three centuries earlier War and Independence in Spanish America provides a unified account of war in Spanish America during the period after the collapse of the Spanish government in 1808 McFarlane traces the courses and consequences of war combining a broad narrative of the development and distribution of armed conflict with analysis of its characteristics and patterns He maps the main arenas of war traces the major campaigns by and crucial battles between rebels and royalists and places the military conflicts in the context of international political change Readers will come away with a fully realized understanding of how war and military mobilization affected Spanish American societies and shaped the emerging independent states

Reconsidering the American Way of War Antulio J. Echevarria II,2014-05-28 Challenging several longstanding notions about the American way of war this book examines US strategic and operational practice from 1775 to 2014 It surveys all major US wars from the War of Independence to the campaigns in Iraq and Afghanistan as well as most smaller US conflicts to determine what patterns if any existed in American uses of force Contrary to many popular sentiments Echevarria finds that the American way of war is not a strategic apolitical or defined by the use of overwhelming force Instead the American way of war was driven more by political considerations than military ones and the amount of force employed was rarely overwhelming or decisive Echevarria discovers that most conceptions of American strategic culture fail to hold up to scrutiny and that US operational practice has been closer to military science than to military art This book should be of interest to military practitioners and policymakers students and scholars of military history and security studies and general readers interested in military history and the future of military power

Good Fences, Bad Neighbors Boaz Atzili, 2024-05-31 Border fixity the proscription of foreign conquest and the annexation of homeland territory has since World War II become a powerful norm in world politics This development has been said to increase stability and peace in international relations Yet in a world in

which it is unacceptable to challenge international borders by force sociopolitically weak states remain a significant source of widespread conflict war and instability In this book Boaz Atzili argues that the process of state building has long been influenced by external territorial pressures and competition with the absence of border fixity contributing to the evolution of strong states and its presence to the survival of weak ones What results from this norm he argues are conditions that make internal conflict and the spillover of interstate war more likely Using a comparison of historical and contemporary case studies Atzili sheds light on the relationship between state weakness and conflict His argument that under some circumstances an international norm that was established to preserve the peace may actually create conditions that are ripe for war is sure to generate debate and shed light on the dynamics of continuing conflict in the twenty first century **Key Issues in the American Saga:the Quest for Freedom** Peter Hitchen,2005-10 Peter Hitchen s award winning dissertation and 8 other articles skillfully examine many of the principal issues concerning the American quest for freedom in dialectical response to its own institutions The dissertation offers a fascinating insight into the forces that shaped post emancipation race issues within the United States of America and the old British Empire Whilst essay topics include the War of Independence Indian allotment African Americans the Civil War Vietnam and Civil Rights Of value for the student and equally of interest to those looking for surveys to many important facets of US history from the 18th to the 20th century Spend 25 100 AND GET FREE POSTAGE ANYWHERE IN THE WORLD History of the World War: America and Russia Frank Herbert Simonds,1919 For contents see Author Catalog America's Merchant Marine Bankers Trust Company (New York, N.Y.),1920 **Political History of America's Wars** Alan Axelrod, Political History of Americas Wars is the first reference work to explore the legislative social and policy aspects of Americas major wars rebellions and insurrections This new volume weaves together important primary source documents informative biographies and in depth essays to provide coverage of the political antecedents events and consequences of Americas wars from the American Revolution to Operation Iraqi Freedom This user friendly online resource features chronological chapters on each of Americas approximately fifty wars rebellions and insurrections in depth essays discussing Americas colonial period and the Indian Wars the imperialist era of the late 19th and early 20th centuries the modern era of America as global policeman and more primary source documents and materials on relevant legislation and congressional resolutions executive orders proclamations court cases and constitutional amendments and vital coverage of war time events and trends including elections and political parties public opinion propaganda media coverage foreign relations diplomacy and treaties and alliances The American War Film Frank McAdams,2005 **America's Interests as Affected by the European War** American Academy of Political and Social Science,1915 The Americas ,1919 **American War Songs** National Society of the Colonial Dames of America,1925 *The War of American Independence 1775-1973* John Malcolm Forbes Ludlow,1876
