Ageless Obsession:

Ageless Obsession Beverly Ungar, 2012-07-25 Melody Fox disillusioned psychologist is the only person who suspects the sudden death of Grant Fisher her husband's friend and business partner was not due to a previously undiagnosed bad heart. She has absolutely nothing to support her gut feelings at first Melody begins delving into places she shouldn't go and finds answers to questions she wished she'd never asked. The tenacious Melody Fox finds herself in perilous life-threatening predicaments as she attempts to uncover the truth about the prestigious Scottsdale Anti Aging Clinic and Grant Fisher's death. A quintessential shattered dream, an undaunted search for truth, and an exhaustive struggle for survival turn Melody Fox's once tranquil life into a daring excursion. BEVERLY UNGAR moved to Santa Fe, New Mexico in 1994 from Davenport, Iowa. She has also resided in London, England, and Hanau, Germany. She has been the owner of an award-winning advertising agency in the Midwest, co-hosted and produced a weekly movie review television program, and has been marketing director for an Indian casino in New Mexico before becoming a novelist.

The Damascene Daniel E. Karim, 2022-04-05 The Damascene is an in-depth fictional expansion of the Old Testament's II Kings 5, which contains what may be the very first beauty and the beast-like story. Personal transformation, whether physical or spiritual, is not initially sought by the main character, but he nevertheless experiences it on more than one level. Other characters, as well, are subjected to their own trials, some with which we all might identify. Infused with deep sensuality and spotted with bloody battles and suspenseful incidents of personal survival, this novel also offers a few moments of comic relief without diverting from its portrayal of true love graphically contrasted with lust, personal weakness, a collision course with friendship and duty, tribalism challenged by individualism, and of worldly skepticism in confrontation with the very idea that spiritual power may actually exist.

Anthropological Perspectives on Aging Britteny M. Howell, Ryan P. Harrod, 2023-02-21 Taking a holistic approach to the study of aging, this volume uses biological, archaeological, medical, and cultural perspectives to explore how older adults have functioned in societies around the globe and throughout human history.

Finding the Fountain of Youth Aharon W. Zorea, 2017-04-26 Separating truth from hype, this book introduces readers to the topic of life extension in a holistic manner that provides scientific, historical, and cultural perspectives. While the story of 16th-century explorer Juan Ponce de León futilely searching for the Fountain of Youth is likely a myth, it is true that for many centuries, mankind has sought a cure for aging. Today, the anti-aging and longevity industry is a multibillion-dollar industry, and medical advances are continuing to find ways to add to our time on earth.

Finding the Fountain of Youth: The Science and Controversy behind Extending Life and Cheating Death introduces readers to the topic of life extension in a holistic manner, examining the topic through scientific, historical, and cultural perspectives. It also highlights key medical and ethical controversies related to this particular area of gerontology and serves as a gateway for further research and study. The book's chapters address the history of movements to remain youthful from ancient times through the modern era, past medical advances that significantly extended the average

lifespan and our cultural obsession with staying young that has spawned the anti aging industry Readers will learn about basic principles of aging and anti aging as well as the science behind the methods both proven and hypothetical that serve to extend the lifespan The final section of the book examines controversial issues and debates related to life extension such as global overpopulation length of life versus quality of life and socioeconomic concerns

Aging Across Cultures Helaine Selin,2022-01-01 This volume brings together chapters about aging in many non Western cultures from Africa and Asia to South America from American Indians to Australian and Hawaii Aborigines It also includes articles on other issues of aging such as falling dementia and elder abuse It was thought that in Africa or Asia elders were revered and taken care of This certainly used to be the case But the Western way has moved into these places and we now find that elders are often left on their own or in institutions as younger people have migrated to other cities and even countries Grandparents often find themselves being parents to their grandchildren a far cry from the kind of life they believed they would have as they aged This book will explore all these issues and will be of use to students and researchers in this relatively new field
