Francis Taylor Piggott

Aids And Beyond:

Beyond Sexuality Tim Dean, 2000-09 *Beyond Sexuality* points contemporary sexual politics in a radically new direction Combining a psychoanalytic emphasis on the unconscious with a deep respect for the historical variability of sexual identities this original work of queer theory makes the case for viewing erotic desire as fundamentally impersonal Tim Dean develops a reading of Jacques Lacan that rather than straightening out this notoriously difficult French psychoanalyst brings out the queer tensions and productive incoherencies in his account of desire Dean shows how the Lacanian unconscious deheterosexualizes desire and along the way he reveals how psychoanalytic thinkers as well as queer theorists have failed to exploit the full potential of this conception of desire The book elaborates this by investigating social fantasies about homosexuality and AIDS including gay men's own fantasies about sex and promiscuity in an attempt to illuminate the challenges facing safe sex education Taking on many shibboleths in contemporary psychoanalysis and queer theory and taking no prisoners *Beyond Sexuality* offers an antidote to hagiographical strains in recent work on psychoanalysis Foucault and sexuality

Beyond Shame Patrick Moore, 2004 Patrick Moore boldly argues that the promiscuous gay men of the 1970s were actually artists and that AIDS derailed an esthetic community and sexual adventure This quietly personal book reclaims the past for young gay men and makes it useable Edmund White author of *A Boy's Own Story* A personal tender honest book about a past that can never be regained but must not be forgotten Sarah Schulman author of *After Delores* Patrick Moore reminds us of the extravagant creativity of gay self fashioning in the 1970s in the hope that such historical awareness can help us bring about an extravagant creative gay future Carolyn Dinshaw Director of the Center for Gender Sexuality New York University Moore's exceptional study considers those men who fashioned an underground gay life that still resonates today Felice Picano author of *Like People In History* and a founding member of the Violet Quill Club

Beyond Left and Right Anthony Giddens, 2013-08-23 How should one understand the nature and possibilities of political radicalism today The political radical is normally thought of as someone who stands on the left opposing backward looking conservatism In the present day however the left has turned defensive while the right has become radical advocating the free play of market forces no matter what obstacles of tradition or custom stand in their way What explains such a curious twist of perspective In answering this question Giddens develops a new framework for radical politics drawing freely on what he calls philosophic conservatism but applying this outlook in the service of values normally associated with the Left The ecological crisis is at the core of this analysis but is understood by Giddens in an unconventional way as a response to a world in which modernity has run up against its limits as a social and moral order The end of nature as an entity existing independently of human intervention and the end of tradition combined with the impact of globalization are the forces which now have to be confronted made use of and coped with This book provides a powerful interpretation of the rise of fundamentalism of democracy the persistence of gender divisions and the question of a normative political theory of violence It will be essential

reading for anyone seeking a novel approach to the political challenges which we face at the turn of the twenty first century

Beyond Blood Duncan Kimani Kamau, Justin T. Miller, Cornel Onyango Nyaywera, 2019-10-22 The true life story of how three men helped save the lives and families of thousands living with HIV AIDS in East Africa Written by three co founders of CARE for AIDS a nonprofit providing support for men and women living with HIV AIDS in East Africa Beyond Blood is the true life account of how three men from drastically different backgrounds came together to form a grassroots nonprofit that has empowered thousands of HIV positive people in East Africa to live lives beyond AIDS This is the story of how Justin T Miller an American Vanderbilt undergraduate student met Duncan Kimani Kamau and Cornel Onyango Nyaywera two men who had grown up witnessing firsthand the devastating effects of HIV AIDS in their own communities in Kenya Though Kamau and Nyaywera grew up in opposite ends of the country and came from opposing tribes they overcame prejudice and cultural expectations to bring healing to their communities With Miller s help their dream of empowering people to live a life beyond AIDS became a reality Once Kamau Miller and Nyaywera realized their common purpose CARE for AIDS was born But it was only the beginning of their fight against AIDS as they quickly discovered the fear and stigma that blanketed the disease If their fledgling nonprofit was going to empower anyone they would need help and they found it one local church at a time As they slowly but steadily grew their network of friends and allies Kamau Miller and Nyaywera discovered that the most complex problems can be solved through intentional redemptive relationships

Rationing and Resource Allocation in Healthcare Ezekiel J. Emanuel, 2018 Budgets of governments and private insurances are limited Not all drugs and services that appear beneficial to patients or physicians can be covered Is there a core set of benefits that everyone should be entitled to If so how should this set be determined Are fair decisions just impossible if we know from the outset than not all needs can be met While early work in bioethics has focused on clinical issues and a narrow set of principles in recent years there has been a marked shift towards addressing broader population level issues requiring consideration of more demanding theories in philosophy political science and economics At the heart of bioethics new orientation is the goal of clarity on a complex set of questions in rationing and resource allocation Rationing and Resource Allocation in Healthcare Essential Readings provides key excerpts from seminal and pertinent texts and case studies about these topics contextualized by original introductions The volume is divided into three broad sections Conceptual Distinctions and Ethical Theory Rationing and Resource Allocation Containing the most important and classic articles surrounding the theoretical and practical issues related to rationing and how to allocate scarce medical resources this collection aims to assist and inform those who wish to be a part of bioethics 21st century shift including practitioners and policy makers and students and scholars in the health sciences philosophy law and medical ethics
