The Politics of Popular Culture Tim Nieguth, 2015-06-26 Why popular culture matters to political science and vice versa
Programming Reality Zoë Druick, Aspa Kotsopoulos, 2008-08-01 Programming Reality Perspectives on English Canadian Television the first anthology dedicated to analyses of Canadian television content is a collection of original interdisciplinary articles combining textual analysis and political economy of communications It explores the television that has thrived in the Canadian regulatory and cultural context namely programs that straddle the border between reality and fiction or even blur it The conceptual basis of this collection is the hybrid nature of television fare the widely theorized notion that all mediations of reality involve fiction in the form of narrative or symbolic shaping Each of the contributions here is a reminder too of the significant relationship of television to nation building in Canada to the imaginative work involved in thinking through the relations that constitute nations citizens and communities The collection focuses on English language Canadian television because the imperatives guiding its texts are markedly different from those pertaining to their French language counterparts The collection therefore develops a nuance of perspective on the cultural and political economic specificities that inform the imaginative work of television production for English Canada
