**Color Scanning and Imaging Systems** Gary G. Field,1990      **Digital Color Imaging Handbook** Gaurav Sharma,Raja Bala,2017-12-19 Digital technology now enables unparalleled functionality and flexibility in the capture processing exchange and output of color images But harnessing its potential requires knowledge of color science systems processing algorithms and device characteristics topics drawn from a broad range of disciplines One can acquire the requisite background with an armload of physics chemistry engineering computer science and mathematics books and journals or one can find it here in the Digital Color Imaging Handbook Unprecedented in scope this handbook presents in a single concise and authoritative publication the elements of these diverse areas relevant to digital color imaging The first three chapters cover the basics of color vision perception and physics that underpin digital color imaging The remainder of the text presents the technology of color imaging with chapters on color management device color characterization digital halftoning image compression color quantization gamut mapping computationally efficient transform algorithms and color image processing for digital cameras Each chapter is written by world class experts and largely self contained but cross references between chapters reflect the topics important interrelations Supplemental materials are available for download from the CRC Web site including electronic versions of some of the images presented in the book      [Advanced Scanners and Imaging Systems for Earth Observations](#) Goddard Space Flight Center,1973 Assessments of present and future sensors and sensor related technology are reported along with a description of user needs and applications Five areas are outlined 1 electromechanical scanners 2 self scanned solid state sensors 3 electron beam imagers 4 sensor related technology and 5 user applications Recommendations charts system designs technical approaches and bibliographies are included for each area      **Advanced Scanners and Imaging Systems for Earth Observations** Goddard Space Flight Center.
