

Color Cards

Description

All colors in this figure file are inspired by *The Designer's Dictionary of Color*, which is an amazing book for referencing colors and the feelings they represent. I felt compelled to make a digital reference for the colors in the book and thought I'd also share it with the designer community.

Index Page

The Designer's Dictionary of Color features primary, secondary, and tertiary colors, and groups them in warm, vibrant, and cool categories. Additionally, the book contains neutral and "specialty" colors as well. Each color in the book has an associated RGB code and Pantone Matching System number. Unfortunately, when exporting the codes in this file, it seems that some of the RGB codes in the book were incorrect, so for some of these colors, I entered their PMS numbers on Google, copied their hex codes, and tried my absolute best to make sure each color was consistent with both the book and the PMS cards online. The book itself places a great emphasis on the subjectivity of color, so by no means is this meant to be a color bible, but I consider the colors on this page to be great starting points, for us as designers to then take and experiment with their hues, tints, and shades, for both new and existing projects. The names of all of the colors are taken directly from the book, but may also have other names associated with them.

Color Cards Page

On the Color Cards Page, I felt inspired to create a quick reference that would allow us to see how these colors interact with each other. Each set of cards features a foreground color on top of a background color and includes both text and shapes for quickly referencing usability and the more abstract. Each column contains a foreground color on top of all other background colors. Each row contains a background color behind all other foreground colors. I also consider these to be starting points to their experiment with different hues, tints, and shades.

I genuinely hope you will get as much use out of this file as I'm getting, and feel free to look me up on LinkedIn. If this file is or has been helpful to you I would love to hear about it. 🙌
