

Coloured Pencil Techniques

Coloured pencil is amazingly satisfying to work with, partly because it's so easily manipulated and controlled. The way you sharpen your pencil, the way you hold it, and the amount of pressure you apply will all affect the strokes you create. With coloured pencils, you can create everything from soft blends to brilliant highlights to realistic textures.

Strokes

Each line you make in a coloured pencil drawing is important—and the direction, width, and texture of the line you draw will all contribute to the effects you create. Practice making different strokes, as shown in these examples. Apply light, medium, and heavy pressure; use the side and then the point of your pencil; and experiment with long, sweeping strokes as well as short, precise ones. The more familiar you are with the wide array of strokes you can create, the easier it will be for you to re-create the textures and objects you observe.

STROKES AND MOVEMENT

Although a group of straight lines can suggest direction, a group of slightly curved lines conveys a sense of motion more clearly. Try combining a variety of strokes to create a more turbulent, busy design. Exercises like these can give you an idea of how the lines and strokes you draw can be expressive as well as descriptive.

Once you're familiar with the basic techniques, you'll be able to decide which will best enable you to capture your subject's unique qualities. There are as many techniques in the art of coloured pencil as there are effects you'd want to re-create—and the more you practice and experiment, the more potential you will see in the images that inspire you.

Light pressure

Medium pressure

Heavy pressure

PRESSURE Varying the amount of pressure you use on your pencil is an easy way to make transitions between values. Since coloured pencils are translucent, the colour of the paper underneath will show through. With light pressure, the colour is almost transparent. Medium pressure creates a good foundation for layering, and heavy pressure flattens the paper texture, making the colour appear almost solid.

VARIED LINE Try varying the width and weight of the lines you create to add more texture and interest. These calligraphic lines can help create a feeling of dimension in your drawing.

STROKES AND TEXTURE You can imitate a number of different textures by creating patterns of dots and dashes on the paper. To create dense, even dots, try twisting the point of your pencil on the paper.
