*Should We Colonize Other Planets?* Adam Morton,2018-10-15 As humans continue to degrade and destroy our planet s resources leading to predictions of total ecological collapse some such as the entrepreneur Elon Musk now suggest that a human colony elsewhere may be our species best hope for survival Adam Morton examines extra terrestrial colonization plans with a critical eye He makes a strong case for colonization just not by human beings Humans live relatively short lives and to survive require large amounts of food and water very specific climatic conditions and an oxygen rich atmosphere We can create colonists that have none of these shortcomings Reflecting compassionately on the nature of existence Morton argues that we should treat the end of the human race in the same way that we treat our own deaths as something sad but
