## Among The Deepening Shades:

**Building W. B. Yeats's Later Poetry** Tomoko Iwatsubo, 2024-09-09 This book explores Yeats's later poetry through the metaphor of the poetic tower where different kinds of building architectural textual political and symbolic were closely interrelated It chronologically examines Yeats's tower poems composed during a period of dramatic personal and national transformation from 1915 to 1932 Within a year after the Easter Rising in Dublin Yeats acquired a half ruined Norman tower in County Galway Ireland which had enthralled him for the past two decades and textually and architecturally constructed it into a focus of his life and work Interweaving the account of the renovation of the actual building and the textual construction in the socio historical contexts the book reveals the evolution of Yeats's multiplex tower as an organizing principle of his later poetry Using the archive of correspondence and manuscript materials of relevant poems including those which have thus far escaped close attention the book offers close textual genetic analyses and a diachronic view of Yeats's tower poetry which with its foundations laid decades earlier he built in the collections from *The Wild Swans at Coole* 1919 to *The Winding Stair and Other Poems* 1933 Highlighting the delicate exchange between poetry and biography as well as between the textual architecture and the actual one identifying a turning point in the making of each tower oriented poem and proposing some draft dating revisions this first book length systematic study on the process of Yeats's creation of the tower casts an unfamiliar light on a familiar yet underexplored landmark in modern poetry and makes his step by step construction work come alive

**The Deepening Shade** Barbara M. Sourkes, 1982 *The Deepening Shade* is an elegant synthesis of the psychology of life threatening illness The book's evocative power derives from the interweaving of clinical conceptualization with the words of patients and family members Rather than focusing on death Sourkes explores living with a life threatening illness

**Reality Principles** Herbert Blau, 2011-06-07 A panoramic view of how we think about life and the imitation of life on stage

**A Taste for the Negative** Shane Weller, 2026-02-02 Since the mid 1950s when the works of Samuel Beckett began to attract sustained critical attention commentators have tended either to dismiss his oeuvre as nihilist or defend it as anti nihilist On the one side are figures such as Georg Lukacs on the other some of the most influential philosophers and literary theorists of the post war era from Theodor Adorno to Alain Badiou Taking as his point of departure Nietzsche's description of nihilism as the uncanniest of all guests Weller calls this critical tradition into question arguing that the relationship between Beckett's texts and nihilism is one that will always be missed by those who are simply for or against Beckett
