Art History* Ray Hernandez-Duran,2026-02-02 The first substantial Mexican colonial art historiography in English this book
examines the origin of the study of colonial art in Mexico as a symptom of the development of modern museum practice in
mid nineteenth century Mexico City Also an intellectual history this study recognizes the role of nationalism in the initiation
of art historical practice in what is understood today more broadly as Latin America Although there has been a steady stream
of scholarship produced about the subject beginning in Mexico and increasingly in the United States what is variably known
as viceregal or colonial Mexican Spanish colonial and colonial Latin American art continues to be underplayed or overlooked
by most art historians and is thus marginal in the field of art history Ray Hernandez Dur n redresses that omission presenting
a detailed examination of the origin of the study of colonial art in Mexico Drawing upon archival research this volume
touches upon the role of politics on the formation of the first gallery of Mexican painting in the Academy of San Carlos and
the first comprehensive historical treatment of the material in the form of a dialogue Furthermore this study promotes
further research in colonial art historiography and underlines the pivotal role that the Indo Hispanic Americas played in the
