**Eis Peirasmón** Federico Elmetti, 2022-09-28 For the past two thousand years theologians and biblical scholars have been furiously debating the correct interpretation of the sixth petition of the Lord's Prayer and lead us not into temptation Despite all the hypotheses proposed no convincing solution has been found to date In fact every single attempt has crashed against insurmountable difficulties Even within the church the debate on this topic is far from settled Recently both France and Italy approved new translations that deviate substantially from the two thousand year old traditional Latin version Since God cannot be the one leading us into temptation Satan is it becomes necessary to reformulate the petition by hiding God's responsibility under convoluted permissive constructs But can any of these interpretations have any exegetical justification This book is an ambitious and reckless attempt from the point of view of an outsider of a theoretical physicist to rethink the Lord's Prayer from the beginning and with it to come closer if possible to the authentic message of Christ As a result of a

rigorous deductive scientific approach that minimizes any hermeneutical bias the meaning of the sixth petition will spontaneously emerge and appear to the reader in its simplicity and elegance
