Power, Faith and Money Joannes Wyckmans,2026-01-20 *Power Faith and Money* An Epilogue to *The Corruption of the Faithful* What if civilization was never built on truth but on restraint In *Power Faith and Money* belief is not treated as virtue money not as corruption and power not as moral failure Instead they are revealed as structural necessities psychological technologies that hold societies together precisely because they cannot be fully understood without consequence This book argues that the separation of Church and State was never about freedom but about containment That faith functioned as a stabilizing psychosis money as stored obedience and power as invisible order That Christ did not fall because he was rejected but because he revealed too much too soon And that modern society having dismantled its sacred illusions now suffers from belief without belief a mass psychosis unable to stop believing yet incapable of believing well From the crucifixion as economic execution to the modern state as unacknowledged god to the market as church this epilogue traces the long arc of a civilization that mistook revelation for wisdom and transparency for liberation This is not theology Not economics Not politics It is an autopsy *Power Faith and Money* is a philosophical reckoning with why corruption is inevitable why truth destabilizes more than it frees and why the final wisdom is not to reveal but to remain silent where silence still holds the world together This book is not for those seeking answers It is for those prepared to live with what must not be said
