City is located on the remains of an old city This city which was once big and gorgeous and was called Tenochtitlan was razed to the ground in a very short period of time and in a very cruel manner by foreign invaders on August 13th 1521 Once Tenochtitlan was a capital city of the Aztecs or how they called themselves Mexica which they founded in the year 1325 In the course of only few centuries they managed to establish an immense empire which is known as the Aztec empire today The Mexica Aztecs mark the beginning of the Mexican culture Thus in this term paper I will be dealing with the Chicano culture at its very beginning Who were the Aztecs What does Aztec mean Where did they come from And how did they manage to establish such a big and powerful empire Why Tenochtitlan has been destroyed This term paper works with these questions In order to answer them a little journey through the history has to be done Hence this term paper also offers an overview of the most important events that occurred at that time But my primary concern will be to find out how the European invaders managed to overthrow the Aztec empire Or how could the Aztec empire fall to a small group of Spanish invaders How is it possible In other words I would like to find out the reasons for the fall of the Aztec empire A paper about the history and especially the Ancient history is a hard venture Because of a great variety of secondary literature and accordingly of the different opinions and views of the authors of this books relating to this theme one can quickly lose track of things The analysis is getting even more difficult because we have only few source documents from the Aztecs today so that one can not know for sure what really happened at that time The information about the Aztecs survived in the Aztec codices like for example Codex Mendoza where the conquests of the Aztec kings and tribute areas are registered it contains also a short ethnographic overview Other documents that we have today are basically chronicles of the Spanish conquerors for example *Historia verdadera de la conquista de la Nueva España* written by Bernal Díaz del Castillo or 5 letters of Cortés to the Spanish king

Cortes Hernán Cortés, 1908 The Conquest of the Aztecs Charles River Editors, 2025-06-29

From the moment Spanish conquistador Hernan Cortés first found and confronted them the Aztecs have fascinated the world and they continue to hold a unique place both culturally and in pop culture. Nearly 500 years after the Spanish conquered their mighty empire the Aztecs are often remembered today for their major capital Tenochtitlan as well as being fierce conquerors of the Valley of Mexico who often engaged in human sacrifice rituals. Ironically and unlike the Mayans the Aztecs are not widely viewed or remembered with nuance in part because their own leader burned extant Aztec writings and rewrote a mythologized history explaining his empire's dominance less than a century before the Spanish arrived. Naturally Cortés and other Spaniards depicted the Aztecs as savages greatly in need of conversion to Catholicism. While the Mayans are remembered for their astronomy numeral system and calendar the Aztecs have primarily been remembered in a far narrower way despite continuing to be a source of pride to Mexicans through the centuries. As a result even though the Aztecs continue to interest people across the world centuries after their demise it has fallen on archaeologists and historians to try to determine the actual history culture and lives of the Aztecs from the beginning to the end relying on excavations primary accounts and more. Nearly 500 years after his death and the demise of his empire Moctezuma II is the most famous ruler of the most famous civilization in the New World the Aztec. For centuries the legends surrounding his life and the conquest of the Aztecs by Hernan Cortés have fascinated readers and historians alike. Moctezuma was born around 1466 in the legendary Aztec city of Tenochtitlan and into the ruling family of the Aztec Confederacy. In the Nahuatl language his name means Angry Lord or Strong Armed Lord and he was the ninth ruler of the Aztecs who called their leaders *tlatoni*. Though he is the best known ruler of the Aztec today he was actually the second Aztec *tlatoni* to bear the name Moctezuma after he assumed the throne from his uncle. The Spanish conquest of the Aztec and some of the myths and legends surrounding it have made his name and variations of it like Montezuma instantly recognizable around the globe. His life is shrouded in mystery. Bernal Díaz del Castillo's *The Conquest of New Spain* and Miguel León Portilla's translation of the Aztec observation of the conquest *The Broken Spears* recorded but a few details about the last Aztec ruler's life. Also these two sources are only concerned with the circumstances surrounding the Spanish conquest of the Aztecs and therefore only deal with the very end of Moctezuma II's life and reign. Thus his early life largely remains a mystery. Of course the lionization and demonization of Cortés often take place without fully analyzing the man himself especially because there are almost no contemporaneous sources that explain what his thinking and motivation was. If anything Cortés seemed to have been less concerned with posterity or the effects of the Spanish conquest on the natives than he was on relations with the Mother Country itself. Of the few things that are known about Cortés it appears that he was both extremely ambitious and fully cognizant of politics and political intrigue even in a New World thousands of miles west of Spain itself. Cortés spent much of his time in Mexico and the New World defending himself against other Spanish officials in the region as well as trying to portray and position himself in a favorable light back
