David Grumett

Cosmic Christ:

The Coming of the Cosmic Christ Matthew Fox, 1988-11-23 A comprehensive description of the transformation of Christianity by the bestselling theologian who has defined this spiritual renaissance

The Cosmic Christ in Origen and Teilhard de Chardin James A. Lyons, 1982

[Christ over All Things](#) James P. Crockett, 2024-11-01 Colossians and Ephesians present some of the highest statements of Christology in the New Testament How is it that Christ came to be conceived not only as the Savior of humanity but also as the divine Lord over the whole cosmos While previous scholars have looked to Wisdom traditions and Greco Roman cosmology to provide background for the Christology of Colossians and Ephesians James Crockett demonstrates that Jewish royal ideology provides the key conceptual background through which the Christology of these letters was formed Crockett begins by demonstrating how Jewish literature reveals God's intent to enact his rule over creation through his enthroned king a plan which begins with Adam and continues with the promise of the ideal Davidic king Crockett then shows how Paul utilizes and expands upon Jewish royal ideological themes to portray Christ as the supreme cosmic king through whom God reestablishes cosmic harmony

The Cosmic Christ George A. Maloney, 1968

Earthing the Cosmic Christ of Ephesians, Volume 1 John P. Keenan, 2021-07-28 This is the introductory volume of a multivolume verse by verse interfaith rereading of the New Testament letter to the Ephesians It looks to the Tiantai Buddhist master Zhiyi and his threefold truth to enhance our appreciation of nascent trinitarian themes in Ephesians And it draws upon a broad array of scientific theological and philosophical thinkers in aid of rejecting the epistle's ancient geocentric cosmology and its accommodations to the misogynistic patriarchal and slaveholding norms of its first century surroundings As a whole the work constitutes a twenty first century apologetic for doctrinal humility and for theologizing within a global theological commons

The Cosmic Christ Hans-Werner Schroeder, 1997 The question of the cosmic reality of Christ is central to modern Christian awareness We see lively debate about Christ's nature in relation to the earth and creation not only within the Church itself but also in more speculative areas of thinking and feeling such as creation spirituality and the New Age movement The works of Teilhard de Chardin and Fritjof Capra have stimulated many to think spiritually about the created world and the part of humankind in its evolution These issues were also illuminated by Rudolf Steiner in his Christology which placed the Incarnation at a pivotal point of earthly evolution Exploring the work of the cosmic Christ Schroeder draws upon these sources and clarifies the concepts of reality evil and the meaning of cosmic He summarizes the cosmic dimension of Christ in the New Testament and the developing consciousness of humans in relation to the Logos and examines how we are to engage personally in a natural but deeply conscious relationship with the Christ among us Hans Werner Schroeder born in 1931 is a priest of the Christian Community He teaches at the seminary in Stuttgart and is part of the leadership of this movement for religious renewal

Symbols of Jesus Robert C. Neville,2001 Symbols of Jesus is a systematic theology focusing on what makes Jesus important in Christianity

Creation Spirituality: A Theology Rev. Dr. Richard E. Kuykendall,2023-12-12 A Systemic Theology sounds like a work that will close debate shut down questions and attempt to sit conclusively on a shelf In this novel undertaking the author has borrowed that classical form and danced around it with a wonderfully accessible exploration of Creation Spirituality Kuykendall s tone is personal and invitingly conversational and will lead the reader to want to further explore to read broadly and of course true to the Creation Spirituality tradition get oneself off the bookshelves and into the messy inspiring and beautiful gift that is existence With scholarship and storytelling the author entices Christians familiar with restrictive theological categories the chance to recognize the authenticity of the Creation Spirituality tradition and to embrace a spiritual life that is vibrantly here now and this worldly To those new or familiar with the tradition Kuykendall s Systematic Theology excels as both a primer and reference companion

Matthew Henry

Teilhard de Chardin David Grumett,2005 Pierre Teilhard de Chardin 1881 1955 has been regarded for too long as an esoteric thinker who evacuates theology by subjecting it to scientific theory There is an urgent need to reclaim him as a French catholic theologian with intellectual roots in the early twentieth century Teilhard s imaginative and inspiring work is grounded in the constructive use of biblical and patristic motifs and in his own life experiences of war exile and scientific endeavour From these he develops a distinctive philosophical theology which combines elements frequently assigned to the seperate domains of philosophy of religion systematic theology and mysticism Teilhard provides a detailed theology of human embodiment and natural substances whilst his theories of human action passion vision and virtue offer suggestive resources to pastoral theology His evolutionary cosmology and social democratic politics are discussed in their historical context and the significance of his work for the ongoing dialogue between science and religion is assessed

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25

Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context

Envisioning the Cosmic Body of Christ Aurica Jax, Saskia Wendel, 2019-08-19 The metaphor of the cosmos as the Body of Christ offers an opportunity to escape the aporias of standard Body of Christ imagery which has often proved anthropocentric exclusivist triumphalist and sexist in the analyses of classical theologies The body motif in particular contains starting points for current body discourses of gender sensitive and ecological theologies especially in their mutual overlaps This book offers a critical evaluation of the prospects and boundaries of an updated metaphor of the Body of Christ especially in its cosmic dimension The first part of

the book addresses the complex tradition in which the universal dimension of cosmological Christologies is located including the thinking of the Apostles Paul and John Origen Cusanus Teilhard de Chardin McFague and Panikkar In the second part of the book representatives of various innovative concepts will contribute to the anthology This is a wide ranging study of the implications of a new cosmic Body of Christ As such it will be of interest to academics working in Religion and Gender Religion and the Environment Theology and Christology Encyclopedia of Religion and Nature Bron Taylor, Jeffrey Kaplan, 2005-01-01 No Marketing Blurbs *Cosmic Jesus* J.
