

COSMOPOLITAN CULTURE

THE GILT-EDGED DREAM OF A TOLERANT CITY

BONNIE MENES KAHN

Cosmopolitan Culture

Montserrat Guibernau

Cosmopolitan Culture:

Cosmopolitan Culture Bonnie Menes Kahn, 2002-06-07 From Simon Schuster Cosmopolitan Culture is Bonnie Menes Kahn's exploration of the gilt-edged dream of a tolerant city. The author attempts to identify common features of great cities past and present. Consequently, the reader is shuttled breathlessly from Babylon to Constantinople to Vienna to New York with brief side-junkets. Kahn concludes that common characteristics of the great city—meaning and purpose, tolerance, etc.—created an environment where outsiders felt welcome to join the cosmopolitan culture and in the process strengthen it. Library Journal *The Cosmopolitanism Reader* Garrett W. Brown, David Held, 2010-12-28 In response to a renewed cosmopolitan enthusiasm, this volume brings together 25 essays in the development of cosmopolitan thought by distinguished cosmopolitan thinkers and critics. It looks at classical cosmopolitanism, global justice, culture and cosmopolitanism, political cosmopolitanism, and cosmopolitan global governance. *Open Spaces for Interactions and Learning Diversities* Alessio Surian, 2016-07-08 While changes related to cultural diversity are visible and at work in social, cultural, and political contexts, cultural diversity as such is being ignored or rejected across many countries. It is the denial or hidden nature of diversity in educational settings and learning processes reflected in the marginalisation of this topic that this book wants to address. The book's chapters are blind-peer reviewed and draw from a variety of learning settings across the world. They are intended to open up spaces to talk, promote, and struggle for the relevance of addressing learning diversities. This includes current and new directions for theoretical and methodological discussions. They concern spaces of interaction and diversity research across single and multiple moments, different contexts, and various time scales. They also explore the diversity of theories used to address these issues and how we theorize the relationship between centres and margins in understanding the idea of opening spaces for dialogue.

The Identity of Nations Montserrat Guibernau, 2013-04-25 What is national identity? What are the main challenges posed to national identity by the strengthening of regional identities and the growth of cultural diversity? How is right-wing nationalism connected to the desire to preserve a traditional image of national identity? Can we forge a new kind of national identity that responds to the challenges of globalization and other deep-seated changes? In this important new book, Montserrat Guibernau answers these and other compelling questions about the future of national identity. For Guibernau, the nation-state's traditional project to unify its otherwise diverse population by generating a shared sense of national identity among them was always contested and was accomplished with various degrees of success in Europe and North America. Such processes involved the cultural and linguistic homogenization of an otherwise diverse citizenry and were pursued by different means according to the specific contexts within which they were applied. At present, the impact of strong structural socio-political and economic transformations has resulted in greater challenges being posed to the idea that all citizens of a state should share a homogeneous national identity. Diversity is increasing, and plans for further European integration contain the potential to generate significant tensions, casting greater doubt on the classical

concept of national identity As a result we are faced with a set of new dilemmas concerning the way in which national identity is constructed and defined The book offers a theoretical as well as a comparative approach with case studies involving Austria Britain Canada and Spain as well as the European Union and the United States of America The Identity of Nations will be essential reading for advanced students and professional scholars in sociology politics and international relations

Intercultural Citizenship in the Post-Multicultural Era Ricard Zapata-Barrero,2019-07-08 This book explores the intercultural policy paradigm emerging within diversity and migration studies Drawing on empirical studies of cultural diversity and placing a focus on the current crises of identity in Europe Zapata Barrero argues for an intercultural model of citizenship that prioritises contact between diverse people In looking forward to a post multicultural era his analysis suggests how we can better manage the challenges presented by our increasingly complex multifaceted societies This thoughtful text will appeal to students and scholars across politics sociology anthropology and social psychology as well as

policy makers and social entrepreneurs around the world grappling with issues around migration diversity and citizenship Ricard Zapata Barrero is a Full Professor of Political and Social Sciences at the Universitat Pompeu Fabra Barcelona Catalonia Spain He is also Director of the Interdisciplinary Research Group on Immigration at UPF and Master in Migration Studies He is member of the Board of Directors for IMISCOE and Chair of the External Affairs Committee For information about publications go to his webpage www.upf.edu/web/ricardzapata

Translational Spaces Yifeng Sun,2020-12-29 This book explores the concept of space or rather spaces in relation to translation to construct a conceptual framework for research to better understand and solve translation problems A number of interrelated spatial perspectives on translation supported by empirical evidence are presented to help better understand the complexities between China and West in cultural exchanges and to offer a way of explaining what happens to translation and why it takes on a particular form In the chequered history of Chinese Western cultural exchange effective communication has remained a great challenge

exacerbated by the ultimate inescapability of linguistic and cultural incommensurability It is therefore necessary to develop conceptual tools that can help shed light on the interactive association between performativity and space in translation Despite the unflinching desire to connect with the world transnational resistance is still underway in China Further attempts are required to promote a convergence of Chinese and Western translation theories in general and to confront problems arising from translation practice in particular This work will be of interest to students and scholars in translation studies around the world as well as those working in cultural studies and cross cultural communication studies

Cosmopolitan Ireland Kieran Keohane,Carmen Kuhling,2007-07-20 Ireland is going through a period of unprecedented economic and cultural growth and renewal These changes are due in part to neoliberal policies that have attracted foreign investment The globalization of Ireland s economy has had major social consequences Living standards are rising quickly Emigration has reversed Catholicism has been secularized laws on divorce and sexuality have been liberalized Ireland has become an urban

society for the first time But there is stark inequality and social exclusion epidemics of depression alcoholism and obesity traditional values and community are declining and there is deep ambivalence towards immigrants Ireland s economy is globalized but is Irish society cosmopolitan Wealth has increased but has quality of life improved The authors explore the developments of the last 15 years capturing the intensity of the debates that make up the new cosmopolitan multi cultural Ireland
