The Handbook of Counseling Don C. Locke,Jane

Myers, Edwin L. Herr, 2001-03-02 Whether counselors practice privately or within institutions they will find valuable information within such sections as specialties of counseling legal and ethical issues insurance and malpractice Each chapter is fully referenced This is an excellent library resource with complete appendices of American Counseling Associations TODAY S LIBRARIAN This handbook is a hallmark of collaboration with a consistency of style and quality uncharacteristic of edited works Highly recommended for academic and professional counseling collections LIBRARY JOURNAL A landmark publication in its field The Handbook of Counseling is the authoritative voice of the counseling profession Comprehensive in its scope this text explores how the field has developed the current state of the discipline and where this dynamic profession is going Edited by Don C Locke Jane E Myers and Edwin L Herr leaders in counseling education and research this volume provides readers with the state of the art theory and research today This volume includes sections on the current status of the counseling profession major approaches to counseling settings and interventions and education and supervisory research strategies In addition critical cutting edge issues such as responses to social and professional diversity computer applications and the state of independent counseling practice are discussed Sponsored by Chi Sigma Iota the national honor society of counseling The Handbook of Counseling is a must have resource for all counselors educators supervisors counselors in training professionals and libraries

Self of the Therapist in Medical Settings Max Zubatsky, Jackie Williams-Reade, 2020-05-30 This brief explores how the person of the therapist is developed when training and working in medical settings It highlights important and often unspoken topics such as the personal professional cultural ethical and competency dilemmas new clinicians regularly face The brief also addresses how personal experience with illness death cultural differences and stigma may impact professionals in everyday practice Topics featured in this Brief include Helpful tips and tricks for new professionals entering a medical setting for the first time Working with patients who suffer from chronic and terminal illnesses Sociocultural norms and values that are often present in a medical setting A new framework for identifying and treating professional burnout How to handle ethical situations in medical organizations Self of the Therapist in Medical Settings is a must have resource for clinicians professionals supervisors and faculty working in medical settings

The Use Of Counselling Skills In The Emergency Services Hetherington, Angela, 2001-04-01 This book examines the use of counselling skills in the unique working environment of the emergency services It looks at the stress and trauma of emergency service work and draws extensively on the first hand experiences of personnel

Handbook of Counselling in Britain Windy Dryden, David Charles-Edwards, Ray Woolfe, 1989 This is a handbook of the main fields of counselling activity in Britain It is designed to be used as a source of information for professionals and students of counselling and allied professionals both practising and training

Counselling Skills for Health Professionals Donald Glenn Byrne, Anne Byrne, 1996 Hardcover edition of a text specially relevant to students and practitioners in the health sciences which provides a basic introduction to counselling in health care It then focuses on a range of specific instances in which counselling has

been of established value including sexual counselling counselling for families counselling for women and counselling for drug users and those who are HIV positive Includes bibliography and index The authors are co authors of Psychology for Nurses

Counselling in Primary Health Care Jane Keithley, Geoffrey Norman Marsh, 1995 A substantial proportion of the problems that bring patients to general practice are associated with stress relationships and psychological or psychosomatic responses to difficulty in their lives This book will help all those in the primary health care team to examine their roles as counsellors to those patients themselves or as the gateway to other counselling services The authors who include those working in medicine nursing social work psychology sociology social policy and economics discuss the different points of view regarding the position of counselling in primary care and which team members are the most appropriate counsellors As the burdens on the primary health care team increase many more health care workers will find themselves becoming involved in the many diverse aspects of providing counselling This is a uniquely practical guide for everybody who wishes to improve their knowledge of this demanding but deeply rewarding aspect of health care

Medical and Psychiatric Issues for Counsellors Brian Daines, Linda Gask, Tim Usherwood, 1997-02-10 Counsellors often encounter situations where clients medical or psychiatric conditions and their treatment affect the assessment of or work with that client The first comprehensive overview of its kind aimed specifically at counsellors this book highlights their key concerns and offers practical advice for judging when a situation may be beyond the counsellor's skills Topics covered include how to recognize serious medical or mental health problems and guidelines on referral information on the effects and possible side effects of certain drug treatments how to deal with a medical emergency should it arise within a session how to help clients deal with medical dilemmas such as HIV testing and which psychiatric conditions can be exacerbated by counselling The authors consider in further detail questions counsellors must be aware of in assessment at the point of referral and in ongoing counselling for instance when it is appropriate to refer on and how best to do it how to liaise with the client's GP and whether or not it is appropriate to visit in hospital Ethical and legal issues including confidentiality and counsellor responsibility are addressed throughout

Counselling and Communication in Health Care Hilton Davis, Lesley Fallowfield, 1991 Modern medical treatment can be an unpleasant dehumanizing experience The authors of this work believe that the available high technology coupled with solid counseling and communication form the basis of the best physical and psychological care for patients Contributors illustrate the types of patients that might benefit from counseling and potential strategies for assistance Counseling tactics for patients with chronic illnesses such as diabetes renal disease and disfigurement as well as disabling conditions such as brain and spinal injury and multiple sclerosis are discussed Infertility genetic counseling neonatal intensive care cancer and heart disease are also covered Will provide the medical student instructor or physician with a better understanding of counseling and its application in a variety of medical settings

Introduction to Counselling Skills Richard Nelson-Jones, 2005 As a course book or an aide to individual learning this book contains a wealth

of information and guidance based on years of study and practice It is easy to use because it is clearly signposted I particularly like the way the author addresses the range of issues a student needs to consider before embarking on a counselling course The structure of building block by block skill by skill simplifies assessment Counselling and Psychotherapy Journal Good counselling skills are the key to effective helping relationships Introduction to Counselling Skills Second Edition is designed to help readers acquire and develop these skills using an easy to follow three stage model Drawing on many years experience as a counsellor trainer and writer Richard Nelson Jones describes in detail each stage in the helping process and gives examples to show how the skills work in practice The examples also demonstrate the variety of contexts in which counselling skills are commonly used as well as the diversity of issues and problems they can help to address The book covers what counselling skills are how to conduct sessions ways to clarify and expand your understanding how to improve your listening skills ethical skills Introduction to Counselling Skills Second Edition is full of practical features designed to aid learning including activities related to the particular skill being described learning outcomes examples summaries and a glossary of key terms For this the Second Edition the book has been fully up dated and new material has been added on the diversity of helpers and clients the use of training groups and supervision Combining a clear explanation of skills with a host of practical activities Introduction to Counselling Skills Second Edition is the ideal text for introductory courses in counselling skills counselling and many other professional areas including health care management education and social work

Counselling in the Voluntary Sector Nicholas Tyndall,1993 Nicholas Tyndall has drawn upon his extensive experience of counselling and training in personal and family organizations to provide a comprehensive picture of the voluntary sector In his clear accessible style he outlines the beginnings of counselling in Britain and charts the development of the growing number of specialist and generic agencies The book is written in the firm belief that the voluntary sector can combine what is best in the amateur and the professional Its scope and practices are explored Methods of selection training and supervision of counsellors are compared and the challenges facing staff and management committees are examined The book highlights the strengths and weaknesses of voluntary counselling and identifies the need to improve equal opportunities fill new gaps and develop inter agency collaboration The author has harsh words for public bodies which have high expectations of volunteers but are not prepared to meet the cost He offers helpful advice for existing agencies and those wanting to improve their personal services and guidance to individuals who are interested in becoming counsellors

Clinical Counselling in Primary Care John Lees,2020-12-14 Clinical Counselling in Primary Care examines the complexities and variety of uses of clinical counselling employed in a medical setting With an estimated 2 in 3 GP surgeries now employing a counsellor or referring patients on a regular basis this book tackles key debates head on It discusses a range of important clinical issues such as therapeutic framework clinical work as part of the greater whole the need to develop suitable therapeutic models Clinical Counselling in Primary Care looks at possible developments in the future and argues for

the improvement of the standing of counselling in relation to other primary care professions *Theory and Practice of Counselling and Therapy* Richard Nelson-Jones,2006-01-26 Theory and Practice of Counselling and Therapy written by Richard Nelson Jones is a comprehensive introduction to all of the major therapeutic approaches Written using a common structure for each approach the book allows easy comparison between the different orientations **Counselling in Psychological Services** Dilys Davies,1997 Describing the context in which counselling developed and is currently practiced within the psychological services in the UK this volume highlights how economic and political factors influence the structure and practice of counselling and how these factors affect practitioners and clients **Good Practice in Psychotherapy and Counselling** Don Feasy,2000 This book addresses the needs of trainees and practitioners in psychotherapy and counselling and provides an understanding of the framework of the therapeutic relationship The approach is a practical one covering subjects including managing appointments the right setting for consultations referrals money and the importance of confidentiality and clear communication with clients Case studies are used in the form of vignettes to illustrate and clarify situations faced by those involved in the growing practice of psychotherapy and counselling **Psychological Disorders in General Medical Settings** N. Sartorius,1990
