Counselling In Schools:

Counseling Children and Adolescents in Schools Robyn S. Hess, Sandy Magnuson, Linda Beeler, 2011-11-29 Counseling Children and Adolescents in Schools is a text and workbook designed to help aspiring school psychologists and counselors gain the necessary theoretical background and skill set to work effectively with youth in schools. The dual focus on school counselors and school psychologists provides students with a broader view of the different mental health professionals in the schools with an emphasis on collaboration. This interdisciplinary text can be used across pre-practica, practica, and other school-based field experiences. Without question, this is the most exciting information that I have read toward equipping school counselors to serve children and adolescents. Wanda L. Staley, Morehead State University. This book is a must-read for all school practitioners. It targets school counselors and school psychologists, two areas of specialization that you often do not find written about together. Also, the book offers a broad range of valuable information that will be used extensively in the schools. Bridget Roberts Pittman, Ph.D., HSPP, LMFT, Indiana State University.

Professional School Counseling Rosemary Thompson, Dr. Rosemary Thompson, 2012-04-27 Today's children and adolescents are constantly facing new and unique challenges, and school counselors must respond to this by expanding their role and function within the schools. This revised and expanded edition of Thompson's important text explores these issues as well as the necessary steps school counselors need to take in order to adapt and effectively deal with them. Thompson advocates for the need for standards-based school counseling, outlining the framework and benefits of the ASCA National Model and comprehensive guidance and counseling programs. She addresses the newest research in implementing evidence-based practices, the mental health issues that may be faced by children and adolescents, consulting with teachers, parents, administrators, and the community, and crisis intervention and management. New to this edition are chapters that focus on minority and disenfranchised students and emphasize the need for school counselors to be able to advocate, coordinate, and collaborate on services for these students and their families. This is an essential resource for every school counselor in a time when the profession is becoming increasingly important.
