**Navigating Iran** O. Seliktar, 2012-04-23 This book provides the first full account of America's relations with the Islamic Republic of Iran from Jimmy Carter's presidency to Barack Obama's. It discusses all major facets of Iranian policy of interest to the United States: nuclear proliferation, revolutionary export and support for international terrorism, efforts to undermine the Israeli-Palestinian peace process, and violations of human rights. It compares developments in Iran to their perception in Washington, providing the clearest picture available yet of the discrepancies between the complex and elusive Iranian reality and its understanding in the United States.

**Countdown to Crisis 2000** John G. Day, 1998-12 *Whitewash Y2K* J. Burton Anderson, 1999 *Dreams of Paradise, Visions of Apocalypse* J. Verheul, 2004 The book explores the fundamental and multifaceted dialectic between utopian dreams and dystopian nightmares within American culture. The utopian mindset in constructing and imagining different futures for society is reflected in a wide range of differential cultural texts and narratives such as novels, short stories, political discourses, and treatises, journalism, and scholarly and intellectual debates. Often these combine social criticism and satire, political rhetoric, religious belief systems, and biblical metaphors. Approaching the topic from various angles and throughout different historical periods, the essays in this volume collectively show how fascinating and rewarding the exploration of this utopian discourse is for an understanding of American culture.
