discoveries and advanced technologies are helping us to understand migrations better but alone they won't stop sea turtles and songbirds from going the way of the bison or passenger pigeon. What's required is the commitment and cooperation of the far-flung countries migrants cross long before extinction is a threat. As Wilcove writes, protecting the abundance of migration is key to protecting the glory of migration. *No Way Home* offers powerful inspiration to preserve those glorious journeys.

101 Number Activities, Ages 3 - 6 Bittinger, 2009-01-04 This math activities book is designed as a resource for helping preschoolers learn about numbers. Each book features 101 teaching ideas related to the number theme. The skill building activities in this book invite children to explore numbers, number recognition and counting. Both cooperative and individual learning are encouraged through the hands-on developmentally appropriate activities. These activities have been correlated to state standards and span multiple curriculum areas including math, language development, science, art and music.

Platform One Pat Black, 2000 This assessment and review pack is designed to assess children's learning at the end of each half term. The activities provided are linked directly to the Key Learning Objectives outlined in the Framework for Teaching Mathematics and the new NNS guidelines for assessment and review lessons.

Sharing Books and Stories to Promote Language and Literacy Anne van Kleeck, 2006-11 The role of parent-child and teacher-child shared story telling and storybook reading is a key vehicle for supporting children's development of emergent literacy and early language skills. This highly usable and practical book brings the advantages of sharing books and stories to educational and clinical settings, effectively demonstrating how it may be used to support print knowledge, phonological awareness, vocabulary, inferential language abilities, grammatical and narrative skills. With contributions from notable scholars who actively conduct research in the areas of education, developmental psychology, speech language pathology, reading and early literacy, this unique resource synthesizes and applies current theory and research on uses of sharing books and stories in educational and intervention contexts.

No Way Home David S. Wilcove, 2010-08-30 Animal migration is a magnificent sight: a mile long blanket of cranes rising from a Nebraska river and filling the sky; hundreds of thousands of wildebeests marching across the Serengeti; a blaze of orange as millions of monarch butterflies spread their wings to take flight. Nature's great migrations have captivated countless spectators, none more so than premier ecologist David S. Wilcove. In *No Way Home*, his awe is palpable as are the growing threats to migratory animals. We may be witnessing a dying phenomenon among many species. Migration has always been arduous, but today's travelers face unprecedented dangers. Skyscrapers and cell towers lure birds and bats to untimely deaths; fences and farms block herds of antelope; salmon are caught en route between ocean and river; breeding and wintering grounds are paved over or plowed; and global warming disrupts the synchronized schedules of predators and prey. The result is a dramatic decline in the number of migrants. Wilcove guides us on their treacherous journeys, describing the barriers to migration and exploring what compels animals to keep on trekking. He also brings to life the adventures of scientists who study migrants. Often as bold as their

subjects researchers speed wildly along deserted roads to track birds soaring overhead explore glaciers in search of frozen locusts and outfit dragonflies with transmitters weighing less than one one hundredth of an ounce Scientific discoveries and advanced technologies are helping us to understand migrations better but alone they won't stop sea turtles and songbirds from going the way of the bison or passenger pigeon What's required is the commitment and cooperation of the far flung countries migrants cross long before extinction is a threat As Wilcove writes protecting the abundance of migration is key to protecting the glory of migration No Way Home offers powerful inspiration to preserve those glorious journeys
