British Waterways Great Britain. Parliament. House of Commons. Environment, Food and Rural Affairs Committee,2008 In its 7th report of session 2006 07 HC 345 I ISBN 9780215521330 on British Waterways BW the Committee pressed for adequate funding of the waterways network and expressed concern at the poor relations that existed at the time between the Department for Environment Food and Rural Affairs Defra and BW This further report was prompted by BW s decision in February 2008 to withdraw from the partnership to restore the Cotswold Canals in order to fund urgent repairs to the Monmouthshire and Brecon Canal The report focuses on BW s regeneration and restoration work but also looks at how Defra and BW are working together and the Committee is encouraged by an improvement in the relationship and communication between the two bodies Restoration of canals produces little if any direct benefit to BW and BW has often carried all the financial risk in such projects Canal restoration schemes can be of great value to the areas where the canals are restored producing knock on benefits such as more jobs and visitor income The BW Board is charged primarily with maintaining the existing waterways network and cannot be expected to take on substantial risk from restoration projects especially in present economic conditions If the public sector wishes to obtain external benefits from canal restoration schemes the bodies responsible for obtaining those benefits should bear the risk Defra with British Waterways and other interested bodies should develop a mechanism to score and prioritise public investment in canal restoration according to the external benefits that would be created and should agree how the financial risks of such projects should be borne
