Epp, 1993 A Kansan visited the church of his ancestors in Sweden On Sunday only ten of 800 members came to worship The churches that gave Christianity to America are now writing our obituary unless we avoid their pitfalls Dr Epp sees one hope to disciple people within the church Mt 28 18f that is to train followers like Jesus did his Twelve Chapter 1 details the crippled church The next chapters clarify foundational aspects salvation following Christ calculating cost Chapters 5 to 11 accent the functional aspects of the church Sharing the faith shining our lights via deeds of kindness tapping into prayer power are themes that are underscored The exercise of forgiveness is taught as well as the need to relate to others in Christ like compassion Exciting examples punctuate each lesson Epp a Mennonite pastor discipler draws on 35 years of church experience how he disciplined 128 men at his own house Chapter 11 The Healthy Church asserts that churches dare not drift aimlessly It cites Search Institute regarding the value of family religiousness church educational skills It insists that worship Bible study are best augmented with a network of small groups where caring accountability are experienced where peers minister to each other This calls for a biblical strategy The final chapter invites all church members to consider adopting 10 year goals in areas like giving sharing faith praying serving forgiving relating to others A Guide for Discussion Leaders is included in the book To order DISCIPLESHIP THERAPY contact Stairway Discipleship Box D

Power Games Richard Raubolt,2006-11-17 www richardraubolt com An intense account of the misuse of power in psychotherapeutic training that offers solutions to this urgent issue Over the course of his own training in psychotherapy and psychoanalysis Richard Raubolt came to see that advanced training is more often than not plagued by authoritarian practices some subtle and many pronounced It is the contention of Raubolt and his contributors that these practices instill fear and foster blind obedience to the favored proclivities of the leaders of the training institute In turn this subservience which seeps into the therapeutic relationship prevents both the training candidates and their prospective patients from developing creative authentic and meaningful experiences This is a book written from the perspective of scholars and experienced clinicians who are acutely aware both on a personal and theoretical level of the disruptive role of power games in psychoanalytic institutes The collection features a highly nuanced and comprehensively developed psychoanalytic understanding of the use and misuse of power authority status and control operating in many traditional and nontraditional training experiences Finally new supervisory and training models based on empathy respect for subjective experiences and democratic principles are proposed as an alternative to the abusive practices so powerfully described in this book
