**The Discovery of God: Islam's proof for the existence of God** Mysa Elsheikh,2023-06-27 The Discovery of God gives Islam s proof for the existence of God God is important to us humans as He answers our prayers in times of hardship This means we need to take the issue of His existence seriously Does God exist This is an important question most people ponder on and it is pivotal when it means considering His worship and weighing the truth of an afterlife of punishment or bliss Islam a religion God sent to Prophet Muhammed pbuh 1444 years ago in Arabia is based on the Quran which is the literal speech of God In the Quran God shows over two hundred signs of Himself in the world that prove His existence and who better to claim God exists than God Himself This book states these signs and thus it confirms to Muslims that they are right to believe and persuades nonbelievers into submitting to Allah the one true God

**The Discovery of God** David Klinghoffer, 2007-12-18 Fifty three percent of the world's population practices Judaism Christianity and Islam religions that all trace their lineage to the towering quasi mythological figure of Abraham In this reverent biography of the man who invented or discovered God David Klinghoffer disentangles history from myth and uncovers the profound impact of Abraham's message on his time and on the development of the modern world The Discovery of God chronicles Abraham's life from his birth in Mesopotamia through his travels as preacher and missionary throughout the Middle East Many of the primary sites of Abraham's life and career still exist and Klinghoffer describes what they were like in ancient times and how they appear today The tangible details of the polytheistic culture are re-created showing how Abraham challenged the most basic beliefs of his contemporaries He did not set out to establish the Jewish religion but rather to spread the message of ethical monotheism as it was revealed to him a powerful message that deepened over time as did his faith and relationship with God In contrast to many scholars who troubled by its contradictions and apparent errors see the Bible as the work of a series of scribes and editors Klinghoffer argues that the Bible should be viewed as an esoteric text that can only be comprehended in light of the oral tradition from which it emanated Combining rigorous scholarship and interpretive ingenuity he draws on biblical commentary and the Jewish oral tradition as preserved by sages from the Talmudic scholars to Maimonides to explore and explain the miraculous origins of monotheism At a time when the world seems to be moving toward a renewed confrontation between the three great Abrahamic faiths The Discovery of God is a potent reminder of the history and beliefs that unite them
