promoted diversity decades before such a concept gained popular currency in the 1990s Fully understood It s a Small World one of the most popular attractions at the Disney theme parks encapsulates Disney s prophetic vision of an appealingly varied world each race respecting the uniqueness of all the others while simultaneously celebrating a common human core In this pioneering volume Brode makes a compelling case that Disney s consistently positive presentation of difference whether it be race gender sexual orientation ideology or spirituality provided the key paradigm for an eventual emergence of multiculturalism in our society Using examples from dozens of films and TV programs Brode demonstrates that Disney entertainment has consistently portrayed Native Americans African Americans women gays individual acceptance of one s sexual orientation and alternatives to Judeo Christian religious values in a highly positive light Assuming a contrarian stance Brode refutes the overwhelming body of serious criticism that dismisses Disney entertainment as racist and sexist Instead he reveals through close textual analysis how Disney introduced audiences to such politically correct principles as mainstream feminism In so doing Brode challenges the popular perception of Disney fare as a bland diet of programming that people around the world either uncritically deem acceptable for their children or angrily revile as reactionary pabulum for the masses Providing a long overdue and thoroughly detailed alternative Brode makes a highly convincing argument that with an unwavering commitment to racial diversity and sexual difference coupled with a vast global popularity Disney entertainment enabled those successive generations of impressionable youth who experienced it to create today s aura of multiculturalism and our politically correct value system

Grab this book for your kids or adults for exciting coloring adventure. Thank you. Here are six learning benefits of colouring in activities:

1. Fine Motor Development: Colouring helps children develop good finger grip. It provides an opportunity to practice holding a pencil the correct way and aids in developing those fine motor muscles in their hands, fingers, and wrist.
2. Concentration: Children's length of concentration develops and improves over time. Colouring requires good concentration, and this type of focusing on one task can help a child develop his or her overall concentration levels.
3. Colour Recognition: Colouring in activities encourages colour awareness. Using different colours gives children an opportunity to explore different combinations and lets them see how they can change the appearance of the picture. It is great also for gaining awareness of the lesser-known colours.
4. Hand-Eye Coordination: Colouring in assists in the development of hand-eye coordination as the child learns to colour within the specified area. Watching and doing and coordinating both actions is a developing skill when colouring in. When children first start colouring, they will have a tough time keeping within the lines, but as they progress, their skill will increase. Staying inside the lines takes considerable skill, and when they master it, they gain a sense of pride and achievement.
5. Sense of Pride and Achievement: We need to give young children every opportunity to gain self-confidence and a sense of self-worth. If they can create something that is aesthetically pleasing, then this will help in the positive development of their personality.
6. Creativity: Colouring in stimulates creative thinking. Children can develop a drawing style and enjoy making an imaginary world. Children learn to plan as they decide the colours they will use in their picture and then what order they are going to colour things within the picture. As their confidence grows, they are more likely to take risks and experiment with colour patterns and special effects with pencil or marker strokes. Colouring in has an important place in child development and can easily be incorporated into a child's day. It provides an opportunity to practice and develop many skills such as concentration, fine motor, and coordination for early writing skills and correct finger grip. It also gives the experience of creativity, colour awareness, and developing a sense of achievement. All these learning benefits from the simple act of colouring in.
