

A man in a dark suit stands in the rain at night, holding a large sign that says "I'M SORRY". The scene is set on a wet street with a building in the background. The man is seen from behind, and the rain is falling heavily around him. The sign is illuminated, and the text is clearly visible. The overall mood is somber and reflective.

I'M  
SORRY

A New Edition Ben Jonson,1853     *Moral Responsibility and Artificial Intelligence* Maximilian Kiener,2025-10-02 This book introduces a novel puzzle the Lorry Driver Paradox to advance our understanding of moral responsibility beyond current paradigms to connect moral philosophy and legal scholarship in new ways and to break new ground in the ethics of AI Part 1 introduces the Lorry Driver Paradox as a set of three individually plausible but jointly inconsistent claims It then develops and defends the concept of strict moral answerability as the most effective solution making it the central idea of the book alongside an account of how taking responsibility could amount to a new hitherto

neglected normative power and an exploration of the significance of apologies in our social practices Part 2 extends this discussion to the context of artificial intelligence proposing a major shift in how we currently think about responsibility and AI It challenges the conventional notion of AI generated responsibility gaps and instead proposes the idea of responsibility abundance This reframing it is argued offers distinct theoretical dialectical and practical advantages Significant parts of these arguments draw on legal scholarship particularly considerations about reverse burdens of proof in criminal law and the waiving of state immunity in public international law On these grounds the book also pursues the methodological idea of a legal lead that is the idea that we can advance our understanding of moral responsibility by investigating selected aspects of legal responsibility and not just the other way around
