Cosmic Cliff Notes Linda Grace,2003-02-01      Cosmic Cliff Notes for the Bible Linda Grace,2002-10-01 The Holy Bible can be very confusing Within this small and simple book you can easily find the Bible s messages of Love Peace Joy Integrity Forgiveness and Commitment      **Beware of False Religions & Pagan Traditions Part 2** Helene Fulton,2015-01-11 There are only two roads one leads to heaven and one leads to hell This is a spiritual fact without change or compromise there is no middle road and no chance to sit on the fence There are numerous false religions operating in the world today falsely broadcasting themselves as truth or as God s truth for that matter These religions may on the contrary be the foundation of lifelong poverty family breakdown mental derangement physical illness or varying manifestations of bizarre behavior in the lives of people These individuals have either turned their back on the true God completely or by their actions have allowed some of these pagan and false religious practises to creep into there every day lives By clinging to these pagan traditions we inadvertently give Satan a foothold in our lives In these books these false religions have been measured up against the word wisdom and knowledge of God The word of God says that His word is like fire and is a hammer that breaks rocks into pieces

*A Strange Goodness?* Stephen Ames, 2024-04-01 This book is about all the suffering and death produced by natural processes like tsunamis genetic disorders extreme weather events even before climate change and the whole evolutionary process leading to all living things on the planet The book is not about the violence men and women wilfully do to each other and to the planet Many people find all this suffering and death due to natural processes hard to reconcile with the belief that these natural processes are created by a God who is all powerful all knowing and wholly good They expect such a God to create a different kind of universe without such suffering and death The actual universe contradicts the universe expected This is good enough reason for many people to decide to give up believing in God who is the creator of these natural processes The book is an invitation for people to revisit that decision The book comes from the author co designing and co lecturing with his atheist colleagues in History and Philosophy of Science at The University of Melbourne a second year subject God and the Natural Sciences This took place over twenty years Students with a wide variety of beliefs enrolled in the subject from across the university The book has three chapters The first clarifies the problem in the problem of natural evil to ensure we are not talking past each other The second chapter gives my answer to the problem of natural evil I argue from this idea of God to the kind of universe we should expect God to create The expected universe is found not to contradict the actual universe The third chapter is Reality Checks nine ways of testing the account of the kind of universe we should expect God to create The book has an appendix where I discuss alternative ideas of God that are in circulation and address several other criticisms of the idea of God besides the problem of natural evil
