Count On Me:

Count On Me Ann Cavlovic,2025-10-01 Count on Me exposes how a family can fracture when aging parents grow frail and debts from the past resurface Tia is raising a baby when her older brother Tristan gradually takes over their ailing parents bank account house and medical decisions Through a web of complex family dynamics Tia uncovers the disaster left by Tristan s meddling in their parents lives As Tia tries to set things straight she confronts how money and love were entangled in her family and whether her own mothering now goes to opposite extremes Told in an intelligent and hopeful voice this is a story about sibling rivalry elder abuse how life can become transactional and how we come to feel entitled to someone else s money *the princess and the magic pea* , Blitzed Sarah Minton,2013-03 When I was twenty one years old a boy ripped my heart out For the first time in my life I felt my heart break I felt it actually break So I wrote I wrote because it was the only thing I knew how to do I wrote because I didn t have to wear a pretend smile or exude a tough exterior in my words Sometimes in life the things that seem to be the worst possible thing that could possibly happen in reality are the best Sometimes our hearts have to break before we can begin to really learn the lessons life has for us Join Sarah on her journey as she learns to understand why God broke her heart For Sarah heartbreak becomes more about what God is trying to tell her and less about the actual act Experience her feelings real true and Blitzed *How to Improve Self-Esteem in Any Child* Ida Greene,2004-10 Greene seeks to teach children how to socially interact with others and how to love respect and appreciate themselves as well as others **Paralysis in the Pew** Dr. Jeffrey T. Rainey,2016-09-26 The author admits that the church has the highest unemployment rates The church has been gifted by the Lord with many vital ministries that are available for the growth of the body of Christ Sadly the greater percentage of members are neither enrolled nor engaged in the work of the ministry As a result very few members keep the local church functioning while the majority of the members because of what the author calls functional paralysis have neither feeling nor desire to function Too many congregants are a part of the membership but apart from the ministry Too many are unaware or uncaring concerning the needs of the body and of the bodys genuine need for them in order to effectively function What the author describes as paralysis in the pew is a grave yet growing spiritual condition within the local churches As a physical impediment paralysis has been drastically improved even cured with the aid of physical therapy prescribed treatments and personal trust and initiative It is the authors contention that parallel treatmentswhen viewed spiritually and applied in the spiritual and physical realmcan drastically improve even cure paralysis in the pew **Attempts** Gideon Yaffe,2012-11-29 Gideon Yaffe presents a ground breaking work which demonstrates the importance of philosophy of action for the law Many people are serving sentences not for completing crimes but for trying to So the law governing attempted crimes is of practical as well as theoretical importance Questions arising in the adjudication of attempts intersect with questions in the philosophy of action such as what intention a person must have if any and what a person must do if anything to be trying to act Yaffe offers

solutions to the difficult problems courts face in the adjudication of attempted crimes He argues that the problems courts face admit of principled solution through reflection either on what it is to try to do something or on what evidence is required for someone to be shown to have tried to do something or on what sentence for an attempt is fair given the close relation between attempts and completions The book argues that to try to do something is to be committed by one s intention to each of the components of success and to be guided by those commitments Recognizing the implications of this simple and plausible position helps us to identify principled grounds on which the courts ought to distinguish between defendants charged with attempted crimes
