Discovering Epitaphs:

Discovering Epitaphs Geoffrey N. Wright, 2008-03-04 Inscriptions on gravestones yield fascinating information about the dead their lives and occupations and the way they died There may well be a verse epitaph of a philosophical or moralistic nature but wit and humour sometimes unintentional creep in to enliven the sombre nature of the message About the author In this book the late Geoffrey Wright first traces the background history of churchyard memorials and then describes many examples of inscriptions and epitaphs which somehow bring us much closer to the people they commemorate and the communities in which they lived Other titles for Shire by this author are Abbeys and Priors Discovering Quacks, Utopias, and Cemeteries Cynthia Williams Resor, 2019-06-21 Discovering Quacks Utopias and Cemeteries Modern Lessons from Historical Themes explores two enduring issues our age old pursuit of better lives and how the media impacts our choices In this unique approach to social history each chapter opens with essential questions asking the reader to consider these issues in historical and modern life The histories of fake cures imaginary and real utopias cemeteries tombstones and scrapbooks are explored from ancient times through the transformations caused by the Industrial Revolution into the twentieth century Historical images excerpts from primary source documents and activities adaptable to learners of all ages are included to illustrate the role of historical media Quacks Utopias and Cemeteries the third in the daily life series by Cynthia Resor is an ideal book for history enthusiasts especially social studies teachers education or humanities professors museum educators and anyone wanting to know about the lives of average people in the past **Discovering Epitaphs** Geoffrey Norman Wright, 1987 **Humanism and Protestantism in Early Modern English Education** Ian Green, 2016-05-13 This volume is the first attempt to assess the impact of both humanism and Protestantism on the education offered to a wide range of adolescents in the hundreds of grammar schools operating in England between the Reformation and the Enlightenment By placing that education in the context of Lutheran Calvinist and Jesuit education abroad it offers an overview of the uses to which Latin and Greek were put in English schools and identifies the strategies devised by clergy and laity in England for coping with the tensions between classical studies and Protestant doctrine It also offers a reassessment of the role of the godly in English education and demonstrates the many ways in which a classical education came to be combined with close support for the English Crown and established church One of the major sources used is the school textbooks which were incorporated into the English Stock set up by leading members of the Stationers Company of London and reproduced in hundreds of thousands of copies during the seventeenth and eighteenth centuries Although the core of classical education remained essentially the same for two centuries there was a growing gulf between the methods by which classics were taught in elite institutions such as Winchester and Westminster and in the many town and country grammar schools in which translations or bilingual versions of many classical texts were given to weaker students The success of these new translations probably encouraged editors and publishers to offer those adults who had received little or no classical

education new versions of works by Aesop Cicero Ovid Virgil Seneca and Caesar This fascination with ancient Greece and Rome left its mark not only on the lifestyle and literary tastes of the educated elite but also reinforced the strongly moralistic outlook of many of the English laity who equated virtue and good works with pleasing God and meriting salvation

Timescapes Ray Laurence,Francesco Trifilò,2023-04-27 This book built around the study of the representation of age and identity in 23 000 Latin funerary epitaphs from the Western Mediterranean in the Roman era sets out how the use of age in inscriptions and in turn time varied across this region Discrepancies between the use of time to represent identity in death allow readers to begin to understand the differences between the cultures of Roman Italy and contemporary societies in North Africa Spain and southern Gaul The analysis focuses on the timescapes of cemeteries a key urban phenomenon in relation to other markers of time including the Roman invention of the birthday the revering of the dead at the Parentalia and the topoi of life s stages In doing so the book contributes to our understanding of gender the city the family the role of the military freed slaves and cultural changes during this period The concept of the timescape is seen to have varied geographically across the Mediterranean bringing into question claims of cultural unity for the Western Mediterranean as a region Mediterranean Timescapes is of interest to students and scholars of Roman history and archaeology particularly that of the Western Mediterranean and ancient social history **Exploring English Churchyard Memorials** Hilary Lees,2002

Visiting village churches has never been more popular than it is today An essential part of such a visit is the ancient churchyard and the typical English churchyard will contain memorials that are more than simple markers They are visible links between the living and the dead and are valuable records of changing social patterns many are excellent examples of vernacular art and architectural design This authoritative but eminently readable survey is based on all those churchyard memorials that have been officially listed Grade I or II Coming from all parts of the country these are summarised in two invaluable appendices that can form the basis for individual exploration **Encyclopedia of Death and Dying** Glennys

Howarth, Oliver Leaman, 2003-12-16 In recent years there has been a massive upsurge in academic professional and lay interest in mortality This is reflected in academic and professional literature in the popular media and in the proliferation of professional roles and training courses associated with aspects of death and dying Until now the majority of reference material on death and dying has been designed for particular disciplinary audiences and has addressed only specific academic or professional concerns There has been an urgent need for an authoritative but accessible reference work reflecting the multidisciplinary nature of the field This Encyclopedia answers that need The Encyclopedia of Death and Dying consolidates and contextualizes the disparate research that has been carried out to date The phenomena of death and dying and its related concepts are explored and explained in depth from the approaches of varied disciplines and related professions in the arts social sciences humanities medicine and the sciences In addition to scholars and students in the field from anthropologists and sociologists to art and social historians the Encyclopedia will be of interest to other professionals and practitioners whose work brings them into contact with dying dead and bereaved people It will be welcomed as the definitive death and dying reference source and an essential tool for teaching research and independent study Harvard Library Bulletin Harvard University.
