Exploring Art for Perspective Transformation Alexis Kokkos,2021-05-12 We live in a socio cultural reality which is dominated by an entrepreneurial and instrumental rationality as well as by a discriminative and populist mentality Questioning the validity of taken for granted sovereign perspectives is thus of vital importance Our contact with art can serve as a pathway through which we might be empowered to identify false life values and develop the disposition and ability to challenge them The

learning potential of aesthetic experience is however barely exploited within educational systems In addition although major scholars have contributed to a deeper understanding of the liberating dimension of processing important artworks there has been surprisingly little discussion in the relevant literature focusing on educational practice Exploring Art for Perspective Transformation provides a comprehensive analysis and synthesis of theoretical views pertaining to the emancipatory process of exploring art Moreover it presents the educational method Transformative Learning through Aesthetic Experience TLAE with reference to particular examples of implementation TLAE is addressed to adult educators and school teachers regardless of the subject they teach and their theoretical background on aesthetics It involves engaging learners in exploring works from fine arts literature theatre cinema and music with a view to promoting critical reflection on one's potentially problematic perspectives

Manet's Ironic Duplicity: Hamlet, Baudelaire, and Masculinity James Rubin, 2026-03-24 The painter Edouard Manet 1832-1883 was a central figure for momentous and lasting changes in the realm of art that still resound today His art speaks directly to the philosophical issues and political conflicts of his own time and is therefore deeply embedded in the development of modernity Manet's Ironic Duplicity focuses on that situation and the historically conscious artist's sometimes ambivalent struggle for authenticity Rather than another full chronological monograph the book is an

interdisciplinary study organized around key concepts It reframes the major and sometimes disparate issues in Manet scholarship by focusing on a never before considered overriding theme duplicity which itself is multiple in its manifestations and variants hence duplicities Reversing the usual narrative this study deconstructs and enlightens the myth of the heroic artist struggling for individual and original vision by revealing how so much of Manet s creativity and irony was prompted by frustrations due to repressive politics censorship and challenges to his sense of self A key aspect of the latter was his masculinity Although Manet s association with the ideas of the poet and critic Charles Baudelaire is well known never has Baudelaire s essay On the Essence of Laughter and the Comic in the Visual Arts been brought to bear on the concept of irony in Manet s work Given Baudelaire s rapprochement between actors and artists as well as Manet s familiarity with the theatrical milieu the book focuses on Manet s two little studied representations of Hamlet as both the starting and end point of its analysis It then concludes with a re reading of the painter s illustrated letters to women as a dissimulation of his final fatal illness in order to maintain his masculine honor

Creative Technologies for Multidisciplinary Applications Connor, Andy M.,2016-03-29 Given that institutions of higher education have a predisposition to compartmentalize and delineate areas of study creative technology may seem oxymoronic On the contrary the very basis of western thought is found in the idea of transcendent knowledge The marriage of opposing disciplines therefore acts as a more holistic approach to education Creative Technologies for Multidisciplinary Applications acts as an inspiration to educators and researchers who wish to participate in the future of such multidisciplinary disciplines Because creative technology encompasses many applications
