

Drinking a Love Story by Caroline Knapp

Drinking a love story by Caroline describes a life of an alcoholic daughter of rich parents. Excessive wealth, love and carelessness from her parents caused her to adopt life threatening habits. She later on started consuming alcohol. She indulged in alcoholism so much that her life was completely devastated. Caroline describes in details the bad outcomes of excessive consumption of alcohol. One third of alcoholics are women. Every day she consumed more and more alcohol and that was causing more damage to her life. Caroline Knapp, a psychotherapist, narrates a trajectory life of an alcoholic daughter.

During Dream world stage, since her adolescence she had problems with drinking. She starts consuming alcohol in her early teens and became a regular drinker by the age of sixteen. Her father was a psychoanalyst and a drinker himself who had affairs with several women. Her mother wasn't able to give attention to her daughter as she was already suffering from breast cancer. She was born in a prosperous family and her twin sister became a physician. However, Knapp became extremely addictive to alcohol. In disillusionment stage, all the symptoms of alcoholism started appearing her as she approached her 20s.

She also started on unrealistic sex relationship with several men. This added to her unhealthy condition. During misery stage her thoughts and imaginations were immersed in a bottle of alcohol. A daughter of well-to-do family had a love affair with alcohol that ruined her entire life. The story narrates a true life image of an alcoholic and a warning for those who had started out habit of drinking. During her enlightenment stage she sometimes realized that this habit has completely ruined her life. She struggles to find out contact with those who are even more alcoholic than her, in order to comfort her that she's not the alone.

Her parents were also alcoholics. However, she tries to come-up with this problem by improving her self-image and recovery from this state. "At the same time Meg's story - her shyness and shame and confusion -is achingly familiar. Bad, semi-consensual drunken sex: so many women I know did this. So many still do. At least one quarter of the 17,592 students surveyed in a 1995 Harvard School of Public Health study on campus drinking said they had suffered an unwanted sexual advance as a result of drinking; that same year, a Columbia University study reported that alcohol plays a role in ninety percent of rapes on college campuses.
