The Educational Significance of Human and Non-Human Animal

Interactions Suzanne Rice, A. G. Rud, 2016-04-29 *The Educational Significance of Human and Non Human Animal Interactions* explores human animal non human animal interactions from different disciplinary perspectives from education policy to philosophy of education and ecopedagogy The authors refute the idea of anthropocentrism the belief that human beings are the central or most significant species on the planet through an ethical investigation into animal and human interactions and real life examples of humans and animals living and learning together In doing so Rice and Rud outline the idea that interactions between animals and humans are educationally significant and vital in the classroom

In Public Houses David W. Conroy, 2018-08-25 In this study of the role of taverns in the development of Massachusetts society David Conroy brings into focus a vital and controversial but little understood facet of public life during the colonial era Concentrating on the Boston area he reveals a popular culture at odds with Puritan social ideals one that contributed to the transformation of Massachusetts into a republican society Public houses were an integral part of colonial community life and hosted a variety of official functions including meetings of the courts They also filled a special economic niche for women and the poor many of whom turned to tavern keeping to earn a living But taverns were also the subject of much critical

commentary by the clergy and increasingly restrictive regulations Conroy argues that these regulations were not only aimed at curbing the spiritual corruption associated with public houses but also at restricting the popular culture that had begun to undermine the colony's social and political hierarchy Specifically Conroy illuminates the role played by public houses as a forum for the development of a vocal republican citizenry and he highlights the connections between the vibrant oral culture of taverns and the expanding print culture of newspapers and political pamphlets in the eighteenth century

Drunk on Genocide Edward B. Westermann, 2021-03-15 In *Drunk on Genocide* Edward B Westermann reveals how over the course of the Third Reich scenes involving alcohol consumption and revelry among the SS and police became a routine part of rituals of humiliation in the camps ghettos and killing fields of Eastern Europe Westermann draws on a vast range of newly unearthed material to explore how alcohol consumption served as a literal and metaphorical lubricant for mass murder It facilitated performative masculinity expressly linked to physical or sexual violence Such inebriated exhibitions extended from meetings of top Nazi officials to the rank and file celebrating at the grave sites of their victims Westermann argues that contrary to the common misconception of the SS and police as stone cold killers they were in fact intoxicated with the act of murder itself *Drunk on Genocide* highlights the intersections of masculinity drinking ritual sexual violence and mass murder to expose the role of alcohol and celebratory ritual in the Nazi genocide of European Jews Its surprising and disturbing findings offer a new perspective on the mindset motivation and mentality of killers as they prepared for and participated in mass extermination Published in Association with the US Holocaust Memorial Museum

A Nation Fermented Robert Shea Terrell, 2024 How did the beer drinking German become a fixture in the global imagination How did a provincial production standard the Reinheitsgebot or Beer Purity Law become a pillar of national consumer sentiments *A Nation Fermented* explores how southern German convictions shaped the culture of the nation in the twentieth century

Faces Along the Bar Madelon Powers, 1998-08-15 Powers examines the lives of salongoers across America including those in major cities such as New York Chicago New Orleans and San Francisco as well as smaller cities such as Sioux City Shoshone and Oakland

Transnational Communities Marie-Laure Djelic, Sigrid Quack, 2010-05-20 Transnational communities are social groups that emerge from mutual interaction across national boundaries oriented around a common project or imagined identity This common project or identity is constructed and

sustained through the active engagement and involvement of at least some of its members Such communities can overlap in different ways with formal organizations but in principle they do not need formal organization to be sustained This book explores the role of transnational communities in relation to the governance of business and economic activity It does so by focusing on a wide range of empirical terrains including discussions of the Laleli market in Istanbul the institutionalization of private equity in Japan the transnational movement for open content licenses and the mobilization around environmental certification These studies show that transnational communities can align the cognitive and normative orientations of their members over time and thereby influence emergent transnational governance arrangements

The Social History of Alcohol and Drugs, 2005 [International Handbook on Alcohol and Culture](#) Dwight B. Heath, 1995-09-30 The first authoritative guide to how the world drinks this reference details alcohol use in different countries and cultures Variation is striking with alcohol sometimes a food a sacrament a symbol a tool a tranquilizer a medicine a love potion or an object of scorn often with very different meanings and uses in a single country This volume reveals multicultural and ethnic beliefs practices and attitudes about drinking around the world An extensive introduction discusses the close link between alcohol and culture and provides a foundation for the rest of the book Each of the following chapters is written by an expert contributor and discusses alcohol and culture in a particular country Chapters discuss historical trends drinking among ethnic and religious minorities national policies and social outcomes Countries range from industrial nations known for their alcohol research to developing nations and to places famous for drinking A concluding chapter highlights important similarities and differences

Bibliographic Guide to Anthropology and Archaeology, 1991 **Selected Readings in the Anthropology of Religion** Stephen D. Glazier, Charles A. Flowerday, 2003-12-30 Brings together in one volume a number of key theoretical and methodological advances in the anthropological study of religion Chapters cover important topics not ordinarily included in books dealing with the anthropology of religion e g bipedalism the study of alcohol film and video images notions of religious agency In addition this collection is intended to build bridges between anthropologists of religion and religious studies scholars Over the last four decades anthropologists have grappled with the dialectical relationship between the examination of cultures from the emic or insider perspective and the etic or outsider perspective Nowhere is this creative tension more evident than in the anthropological study of religion In this volume anthropologists and religious studies scholars come to terms not only with a landscape that has shifted fundamentally but a landscape that is still shifting Essays in this collection raise new and important issues for the anthropological study of religion in new and important ways In intensely personal essays a number of contributors address two fundamental concerns in the study of religion 1 how should anthropologists deal with the beliefs and practices of others and 2 how should anthropologists deal with their own religious backgrounds and beliefs as these may affect their understanding of the beliefs and practices of others A partial resolution to both questions is necessary before the anthropological study of religion can advance to a higher level

Alcohol in Africa Deborah Fahy Bryceson, 2002 This edited collection explores the economic, political, and social meanings of alcohol usage in Sub-Saharan Africa.

Feasts Michael Dietler, Brian Hayden, 2001 From the Ancient Near East to Modern Day North America, communal consumption of food and drink punctuates the rhythms of human societies. Feasts serve many social purposes: establishing alliances for war and marriage, mobilizing labor, creating political power and economic advantages, and redistributing wealth. This collection of fifteen essays combines ethnographic and archaeological perspectives to examine the cultural, economic, and political importance of feasts, considering traditional and modern practices from Africa, Southeast Asia, the Near East, Polynesia, New Guinea, and the Americas. Recording types and quantities of food, preparation techniques, and numbers of participants, the ethnographers provide a much-needed behavioral context and theoretical framework for these intricate social interactions and attempt to link feasting practices to physical evidence. The archaeologists examine the locations of roasting pits, hearths, and refuse deposits or the presence of special decorative ceramics and infer the ways in which feasting traditions reveal social structures of lineage, clan, moiety, and polity. As practices for organizing ancient and modern societies, feasts are intimately implicated in the processes of social and cultural change. This book makes these rituals more accessible to archaeological analysis and interpretation. Jacket.
