## **Drug Wars Political Economy Of Narcotics:**

*Drug Wars* Curtis Marez, 2004 Inaugurated in 1984 America's War on Drugs is just the most recent skirmish in a standoff between global drug trafficking and state power From Britain's nineteenth century Opium Wars in China to the activities of Colombia's drug cartels and their suppression by U S backed military forces today conflicts over narcotics have justified imperial expansion global capitalism and state violence even as they have also fueled the movement of goods and labor around the world In *Drug Wars* cultural critic Curtis Marez examines two hundred years of writings graphic works films and music that both demonize and celebrate the commerce in cocaine marijuana and opium providing a bold interdisciplinary exploration of drugs in the popular imagination Ranging from the writings of Sigmund Freud to pro drug lord Mexican popular music gangsta rap and Brian De Palma's 1983 epic *Scarface* *Drug Wars* moves from the representations and realities of the Opium Wars to the long history of drug and immigration enforcement on the U S Mexican border and to cocaine use and interdiction in South America Middle Europe and among American Indians Throughout Marez juxtaposes official drug policy and propaganda with subversive images that challenge and sometimes even taunt government and legal efforts As Marez shows despite the state's best efforts to use the media to obscure the hypocrisies and failures of its drug policies be they lurid descriptions of Chinese opium dens in the English popular press or Nancy Reagan's Just Say No campaign marginalized groups have consistently opposed the expansion of state power that drug traffic has historically supported Curtis Marez is assistant professor of critical studies at the University of Southern California School of Cinema Television

[The Political Economy of Narcotics](#) Julia Buxton, 2008-02-29 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have

pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America's strategic interest. As a result, US policy approaches emerge as a decisive factor in accounting for the failure of prohibition.

**Drug Wars and Coffeehouses** David R. Mares, 2006. An international policy issue awash in myths, moral inconsistencies, social prejudices, and political rhetoric, it's no wonder students find the international drug trade an alluring topic to study and discuss. With his brief and engaging new book, David Mares explores the reasons why there is so much disagreement among nations about which policies are most appropriate to address drug production, distribution, and trade. From the more tolerant coffee house style policies of the Netherlands, which focus on public health concerns, to the United States' just say no drug war approach, nations frame and seek to resolve these issues in very different ways and with different levels of success. This variation creates a host of global cooperation and policy coordination problems, making *Drug Wars and Coffee Houses* an ideal supplement for giving students an opportunity to apply the larger themes of any political economy course to a substantive policy area. A compelling framework focusing on political economic ideas and analysis shows students how leaders and policymakers need to understand the drug trade as a full-blown commodity system if they are to impact its different segments. As he discusses drug production, consumption, distribution, and money laundering, Mares carefully shows what insights micro-political economic, realist, constructivist, and social deviant perspectives each bring to bear on the problem. And through the book's use of extended case studies, this text offers students an inside look at a complex and fascinating policy area: from Sweden's attempts to enforce drug war style policies to the UK's movement towards decriminalization to the responses of such international organizations as the United Nations and the European Union. A comprehensive bibliography of websites, articles, and book-length studies point to further research on the topic, while class-tested research and study questions for each chapter will jumpstart class discussions and projects.

**The Politics of Narcotic Drugs** Julia Buxton, 2011-04-06. *The Politics of Narcotic Drugs* brings together leading experts on the drugs trade to provide an accessible yet detailed analysis of the multiple challenges that the contemporary trade in narcotic drugs and its prohibition pose from the local to the international community. Through the use of country and regional case studies that include Afghanistan, Mexico, Colombia, and the Middle East, the drivers of the drugs trade and the security and development dilemmas created by the prohibition of narcotic substances are explored. Contributions that assess the international drug control regime, British anti-drug enforcement organizations, narcoterrorism, and options for drug policy reform engage readers in current debates and the narrative frameworks that shape discussion of the drugs issue. The book is an invaluable guide to the dynamic and far-reaching issue of narcotic drugs and the impact of their prohibition on our countries and communities. The chapters are followed by an A-Z glossary of key terms, issues, and organizations, and a section of maps and statistics.

**Handbook of Transnational Crime and Justice** Philip Reichel, Jay Albanese, 2013-04-29. Transnational crime and justice will characterize

the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike

**Drugs, Victims and Race** Anita Kalunta-Crumpton,2006 The author explores common but frequently misleading themes concerning race and drug control providing an outline of UK drugs strategy from its class oriented beginnings in the nineteenth century to the present day identifying the real victims of drugs drug trafficking and drug supply She looks at the full range of drugs issues from the supply end of the drugs chain through enforcement and court proceedings to treatment approaches re addicts and other drug users

**The War on Drugs** David Farber,2021-11-30 Essays offering a revealing look at the history and legacy of the War on Drugs in the United States Fifty years after President Richard Nixon declared a War on Drugs the United States government has spent over a trillion dollars fighting a losing battle In recent years about 1 5 million people have been arrested annually on drug charges most of them involving cannabis and nearly 500 000 Americans are currently incarcerated for drug offenses Today as a response to the dire human and financial costs Americans are fast losing their faith that a War on Drugs is fair moral or effective In a rare multi faceted overview of the underground drug market featuring historical and ethnographic accounts of illegal drug production distribution and sales The War on Drugs A History examines how drug war policies contributed to the making of the carceral state racial injustice regulatory disasters and a massive underground economy At the same time the collection explores how aggressive anti drug policies produced a deviant form of globalization that offered economically marginalized people an economic life line as players in a remunerative transnational supply and distribution network of illicit drugs While several essays demonstrate how government enforcement of drug laws disproportionately punished marginalized suppliers and users other essays assess how anti drug warriors denigrated science and medical expertise by encouraging moral panics that contributed to the blanket criminalization of certain drugs By analyzing the key issues debates events and actors surrounding the War on Drugs this timely and impressive volume provides a deeper understanding of the role these policies have played in making our current political landscape and how we can find the way forward to a more just and humane drug policy regime

**The Political Economy of Narcotics** Julia Buxton, This scholarly examination of the worldwide web of narcotics today provides students social workers health providers law enforcement officers and policy makers with an up to date overall exploration of the world of drugs Vast resources are pumped into the war on drugs But in practice prohibition has failed Narcotics use continues to rise while technology and globalisation have made a whole new range of drugs available to a vast consumer market Where wealth and demand exist

supply continues to follow Prohibition has failed to stem consumption and production criminalised social groups impeded research into alternative medicine and disease promoted violence and gang warfare and impacted negatively on the environment The alternative is a humane policy framework that recognizes the incentives to produce traffic and consume narcotics

**Africa and the War on Drugs** Neil Carrier, Gernot Klantschnig, 2012-10-11 Nigerian drug lords in UK prisons khat chewing Somali pirates hijacking Western ships crystal meth smoking gangs controlling South Africa's streets and narco traffickers corrupting the state in Guinea Bissau these are some of the vivid images surrounding drugs in Africa which have alarmed policymakers academics and the general public in recent years In this revealing and original book the authors weave these aspects into a provocative argument about Africa's role in the global trade and control of drugs In doing so they show how foreign inspired policies have failed to help African drug users but have strengthened the role of corrupt and brutal law enforcement officers who are tasked with halting the export of heroin and cocaine to European and American consumer markets A vital book on an overlooked front of the so called war on drugs

**Policing on Drugs** Aileen Teague, 2025-10-06 Internationally although the war on drugs is widely considered a failure it continues to be deeply entrenched in US diplomacy with partner nations through counternarcotics agreements continued DEA presence overseas and the levels of antidrug aid directed abroad Policing on Drugs writes the history of the drug war from the Mexican perspective examining how the punitive prohibitive policies that have been enacted by the US government have impacted Mexico and its institutions over time This bilateral study helps explain how militarized policing came to be the primary approach to policing people and drugs in the second half of the twentieth century

*Drugs, Intoxication and Society* Angus Bancroft, 2009 Drugs and intoxication have been facts of human life for millennia Across the world many people use illicit drugs smoke and drink alcohol Yet very little has been written about their experiences Academics politicians and media reporting on the topic tend only to consider intoxication when it manifests as a social problem This book takes a more nuanced view and examines drug and alcohol use from a wider number of perspectives It discusses issues such as the history of drug and alcohol use the attractions of intoxication to individuals and the control and regulation of drugs and their users It also examines evidence for the rise of the so called pharmaceutical society and asks whether society is on the cusp of a revolution in psychoactive substance use

**America's Drug War Debacle** Leif Rosenberger, 1996 The United States has waged war against drug abuse for eight decades yet hard core drug abuse is on the rise This study examines the history of America's fight against drug abuse focusing on the national drug control strategies of the last decade and o

**Drug Wars** Jonathan Marshall, 1991 The violence that surrounds drug dealing and drug trafficking has decimated whole communities and in some cases reshaped daily life in entire countries This volume takes a closer look at the people affected by the drug trade and the efforts being made to combat it The book includes firsthand stories critical thinking questions and a summative activity all with the aim of showing the human toll of the drug economy

*Continental Divides* Rachel Adams, 2009-12 Rachel Adams explores the

patterns of contact exchange conflict and disavowal among the cultures that span the borders of Canada Mexico and the United States *Latin American Studies Association ... International Congress* Latin American Studies Association. International Congress,2003 *Chasing Dragons* Kyle Grayson,2008-04-12 Canada has received significant attention of late for initiating a government sponsored medical marijuana program and for its flirtation with marijuana decriminalization At best these initiatives have contributed to Canada being seen as a reluctant ally by Washington and at worst as a potential threat The result of this impression is increasing American pressure to adopt more robust domestic security policies At the same time the Canadian public sees itself as holding unique values that differ from those held by its neighbour to the south Supposedly these values are best reflected by a distinctive security outlook which produces reasonable responses to potential threats a sharp contrast to the manic actions of the United States *Chasing Dragons* challenges these presumptions of difference and exposes the security politics and policy that they make possible Focusing on the issues surrounding illicit drugs Kyle Grayson examines how discourses and practices of security policy actually contribute to the construction of Canadian national and cultural identity This analysis is also relevant beyond Canada Crucially this book identifies the dangers of underestimating the centrality of race and geopolitics to civic conceptions of nationality in liberal societies *Chasing Dragons* reconsiders the meaning of security Additionally it discusses avenues for resisting the insecurity produced by liberal states in the post 9 11 world This critical approach reveals the pervasiveness of power in contemporary Canadian society how this power is hidden and the consequences for progressive social politics *Oceania* Alfred Reginald Radcliffe-Brown,Raymond Firth,Adolphus Peter Elkin,2006 **Dictionary of Political Economy** Robert Harry Inglis Palgrave,1896 *Social Text* ,2004 *Political Economy and the Changing Global Order* Richard Stubbs,Geoffrey R. D. Underhill,2006 Covering the basics necessary for a course in international political economy IPE this text comes from a non American critical perspective and the contributors are drawn from prominent scholars of IPE around the world
