Davies, 2007-05-07 From an author at the forefront of research in this area comes this provocative and seminal work that presents a unique and fresh new look at history and theory Taking a broadly European view the book draws on works of French and German philosophy some of which are unknown to the English speaking world and Martin L Davies spells out what it is like to live in a historicized world where any event is presented as historical as or even before it happens Challenging basic assumptions made by historians Davies focuses on historical ideas and thought about the past instead of examining history as a discipline The value of history in and for contemporary culture is explained not only in terms of cultural and institutional practices but in forms of writing and representation of historical issues too *Historics* stimulates thinking about the behaviours and practice that constitute history and introduces complex ideas in a clear and approachable style This important text is recommended not only for a wide student audience but for the more discerning general reader as well **How the Holocaust Looks Now** M. Davies, C. Szejnmann, 2006-11-16 This collection offers a series of essays that explore the historical culture the holocaust has engendered in Europe Israel and the USA the politics of its reception and

representation the motivations for and effectiveness of commemorating it and the creative and didactic practices it has generated in contemporary literature art and thought **The Matriarch** Witi Ihimaera,2013-07-24 In keeping with his commitment to revisit his first five pieces of fiction Witi Ihimaera has reworked the original text of this much loved classic The matriarch is a woman of intelligence wit beauty and ruthlessness and has become a mythical figure through her fight to repossess the land and sustain her people against the ravages wrought by the Pakeha Priestess of the Ringatu faith she has been virtually a law unto herself In his search for the truth behind the legends surrounding the matriarch his grandmother Tama Mahana delves deeper and deeper into Maori history and lore to understand the mysterious sources of her power and ambition Witi Ihimaera s prose is at turns lyrical and spare sensuous and savage Weaving fact with fiction this remarkable odyssey into New Zealand history is a novel of stunning imaginative power Also available as an eBook Winner of the Wattie Book of the Year 1986 Runner up for the Commonwealth Writers Prize 1987 Witi Ihimaera s uncompromising masterwork A profound and spellbinding character study New Zealand Herald *Australian Books in Print 1999* K G Saur Books,1999-04 Excellent coverage essential to worldwide bibliographic coverage American Reference Books Annual This comprehensive reference provides current finding ordering information on more than 123 000 in print books published in Australia You ll also find brief profiles of more than 12 000 publishers distributors whose titles are represented as well as information on trade associations local agents of overseas publishers literary awards more From Thorpe **The Nation Across the World** Association for Commonwealth Language and Literature Studies. Conference,Harish Trivedi,2007 The Nation across the World examines the present state of teh Nation in a variety of political formations and cultural locations around the world from smaller but no less complex nations such as Australia India Sri Lanka and South Africa to former colonial powers such as Britain and Spain and the one suprenation of our day the USA In the process a wide range of issues are explored including colonialism empire race language ethnicity resistance and rebellion liberation national self fashioning and identity and postcolonial migration and hybridity **Homing in** Bruce Bennett,2006 There are many issues raised when talking about Australia s literature The main criterion for inclusion in these essays is not the canonical status of authors but their fruitful engagement with themes of alienation and belonging in a changing Australia **Striding Both Worlds** Melissa Kennedy,2011-01-01 Striding Both Worlds illuminates European influences in the fiction of Witi Ihimaera Aotearoa New Zealand s foremost M ori writer in order to question the common interpretation of M ori writing as displaying a distinctive M ori world view and literary style Far from being discrete endogenous units all cultures and literatures arise out of constant interaction engagement and even friction Thus M ori culture since the 1970s has been shaped by a long history of interaction with colonial British Pakeha and other postcolonial and indigenous cultures M ori sovereignty and renaissance movements have harnessed the structures of European modernity nation building and more recently Western global capitalism transculturation and diaspora contexts which contest New Zealand bicultural identity encouraging M ori to express their

difference and self sufficiency Ihimaera s fiction has been largely viewed as embodying the specific values of M ori renaissance and biculturalism However Ihimaera in his techniques modes and themes is indebted to a wider range of literary influences than national literary critique accounts for In taking an international literary perspective this book draws critical attention to little known or disregarded aspects such as Ihimaera s love of opera the extravagance of his baroque lyricism his exploration of fantasy and his increasing interest in taking M ori into the global arena In revealing a broad range of cultural and aesthetic influences and inter references commonly seen as irrelevant to contemporary M ori literature *Striding Both Worlds* argues for a hitherto frequently overlooked and undervalued depth and complexity to Ihimaera s imaginary The present study argues that an emphasis on difference tends to lose sight of fiction s capacity to appreciate originality and individuality in the polyphony of its very form and function In effect literary negotiation of M ori sovereign space takes place in its forms rather than in its content the uniqueness of M ori literature is found in the way it uses the common tools of literary fiction including language imagery the text s relationship to reality and the function of characterization By interpreting aspects of Ihimaera s oeuvre for what they share with other literatures in English *Striding Both Worlds* aims to present an additional complementary approach to M ori New Zealand and postcolonial literary analysis
