

The background of the book cover is a detailed illustration of a Tibetan landscape. On the left, a large white building with a prominent blue dome and a tall, slender minaret with a blue top stands on a hillside. A river flows through the center, crossing a stone bridge with three arches. The foreground is filled with rocky, uneven terrain. In the distance, rolling hills and mountains are visible under a sky with soft, white clouds. The overall style is that of a classic landscape painting.

Historical Dictionary of Tibet John Powers, David Templeman, 2012-05-18 Tibet is a land bounded by the world's highest mountains and it is the repository of an ancient culture For centuries it was viewed by Europeans as a remote mystical place populated by Buddhist masters with supernatural powers and profound wisdom In contrast to this image it was once a warlike country whose expansionist rulers conquered a vast empire that incorporated much of central Asia and parts of China Even now the Tibetan Plateau remains a scene of contestation both ideologically and militarily Major popular uprisings in 1959 1988 and 2008 have drawn the attention of the world's media and its religious teachers often attract large crowds when they travel overseas The situation in the country remains highly volatile today as the 2008 uprising the largest and most widespread in the history of the region attests The Historical Dictionary of Tibet is the most comprehensive dictionary published to date on Tibetan history It covers the history of Tibet from 27 000 BCE to the present through a chronology an introductory essay an extensive bibliography and over 1 000 cross referenced dictionary entries on important personalities politics economy foreign relations religion culture anthropology and sociology This book is an excellent access point for students researchers and anyone wanting to know more about Tibet
