Contemporary Case Studies on Fashion Production, Marketing and Operations Pui-Sze Chow,Chun-Hung Chiu,Amy C. Y. Yip,Ailie K. Y. Tang,2017-12-04 This book adopts a case study based research approach to examine the contemporary issues in the fashion industry It documents real world practices in fashion business from production marketing to operations Founded on an extensive review of literature these case studies discuss the challenges that are pertinent to the current business environment in this important industry provide benchmarks and generate insights to practitioners as well as suggest future directions to researchers The book serves as a nexus of the theories and the industrial practices that advances knowledge for both the academia and the private sector in fashion business Costumes, Period dramas and their

Audiences Lydia Edwards,2026-03-10 This book considers the notion of historical escapism through both costume and fashion design illustrating how one informs the other to produce different consumable representations of the past to quell contemporary anxieties and to confront generational traumas Many audiences rely on historically themed theatre film and television to provide a glimpse of what life was like and crucially what clothes were worn at various points in history But most often they look to this version of the past to escape contemporary anxieties To what extent do the interpolations and artistic license taken by designers affect our enjoyment and our sense of what a production should portray How far does accuracy matter and by what yardstick are we measuring it This book pursues historical accuracy merging the real and the romantic resulting in highly atmospheric yet highly contemporary design choices This book presents the theory that in essence not much has changed in the way audiences perceive and consume historical dress and that the cyclical relationship between history and fashion should add theatre film and TV representation into the mix This makes it necessary to consider the social and cultural factors especially post pandemic that have resulted in markedly similar design solutions being made well over a century later This book can be used by students across a wide range of courses including fashion history theatre
