World's End Charlie Gere, 2022-03-29 A memoir and cultural history the World's End a West London area once home to bohemian artists and punk rock and now an outpost of neoliberalism Charlie Gere's account of growing up in the World's End area of West London during the Cold War combines local history cultural history memoir and a strong sense of the apocalyptic Once a rundown part of Chelsea at the wrong end of the King's Road the World's End has long been a place for bohemian writers and artists including Turner Whistler Beckett Bacon and Bacon's muse Henrietta Moraes all of whom evinced an appropriate apocalyptic sensibility After World War II in which the area suffered severe bombing it became a center of the counterculture that emerged from what Jeff Nuttall called Bomb Culture formed by the threat of nuclear annihilation The famous boutique Granny Takes a Trip opened there in 1966 joined later on by Hung On You Puss Weber's Flying Dragon Tea Room and the commune Gandalf's Garden The area also featured trepanning aristocrats and pet lions among other eccentricities In the 1970s the World's End was the center of punk rock Gere's parents arrived as part of a wave of gentrification and Gere born and brought up there witnessed its social and cultural evolution As an adolescent he was traumatized by the prospect of nuclear war He has lived long enough to see the World's End now bearing the marks of out of control neoliberalism and its grotesque accompanying inequality But this too shall pass as world's end

Living with Nature in the Anthropocene Rod Giblett, 2026-01-27 The book brings together philosophy ecoculture and political ecology in a creative critical and timely manner to outline how one might live sacrally with the living earth Drawing on a rich variety of ecocultural texts and from a wide range of philosophers and other thinkers from the ancient Greeks to the present day principally Peter Sloterdijk and occasionally Byung Chul Han the book invites the reader to step along the pathway for living with nature sacrally in the Anthropocene away from the drive for mastery of nature to the desire for and pleasures of mutuality with the living earth Giblett begins with discussions of the four elements the humors the monstrous the sublime slime the uncanny going on through the landscapes of World War I and II mourning melancholy despair cities slums tombs

wombs and being born and finally concludes with bio and psycho symbiosis livelihood bioregion and the living earth [A Poetic History of the Oceans](#) Søren Frank, 2022-07-18 What is the ocean's role in human and planetary history? How have writers, sailors, painters, scientists, historians, and philosophers from across time and space poetically envisioned the oceans and depicted human entanglements with the sea? In order to answer these questions, Søren Frank covers an impressive range of material in *A Poetic History of the Oceans*. Greek, Roman, and Biblical texts, an Icelandic Saga, Shakespearean drama, Jens Munk's logbook, 19th-century writers such as James Fenimore Cooper, Herman Melville, Jules Michelet, Victor Hugo, Jules Verne, Jonas Lie, and Joseph Conrad, as well as their 20th and 21st-century heirs like J.G. Ballard, Jens Bjørneboe, and Siri Ranva Hjelm Jacobsen. *A Poetic History of the Oceans* promotes what Frank labels an amphibian comparative literature and mobilises recent theoretical concepts and methodological developments in Blue Humanities, Blue Ecology, and New Materialism to shed new light on well-known texts and introduce readers to important but lesser-known Scandinavian literary engagements with the sea.

The Drowned World J. G. Ballard, 1983 From one of the most powerful and original talents in science fiction comes the story of a new world, a strange world where solar radiation fluctuations have melted the polar ice caps, flooding the land and raising the temperature of the atmosphere.

[Madonna](#) Mary Gabriel, 2023-10-10 New York Times Editors' Choice, One of NPR's Best Books of the Year. In this infinitely readable biography, award-winning author Mary Gabriel chronicles the meteoric rise and enduring influence of the greatest female pop icon of the modern era, Madonna. *People Magazine*: With her arrival on the music scene in the early 1980s, Madonna generated nothing short of an explosion as great as that of Elvis or the Beatles, taking the nation by storm with her liberated politics and breathtaking talent. Within two years of her 1983 debut album, a flagship Macy's store in Manhattan held a Madonna lookalike contest featuring Andy Warhol as a judge and opened a department called Madonna Land. But Madonna was more than just a pop star. Everywhere fans gravitated to her as an emblem of a new age, one in which feminism could shed the buttoned-down demeanor of the 1970s and feel relevant to a new generation. Amid the scourge of AIDS, she brought queer identities into the mainstream, fiercely defending a person's right to love whomever and be whoever they wanted. Despite fierce criticism, she never separated her music from her political activism. And as an artist, she never stopped experimenting. Madonna existed to push past boundaries by creating provocative, visionary music, videos, films, and live performances that changed culture globally. Deftly tracing Madonna's story from her Michigan roots to her rise to super stardom, master biographer Mary Gabriel captures the dramatic life and achievements of one of the greatest artists of our time.

Environmental Humanities and the Uncanny Rod Giblett, 2019-04-12 Sigmund Freud's essay *The Uncanny* is celebrating a century since publication. It is arguably his greatest and most fruitful contribution to the study of culture and the environment. *Environmental Humanities and the Uncanny* brings into the open neglected aspects of the uncanny in this famous essay in its centenary year and in the work of those before and after him, such as Friedrich Schelling, Walter Benjamin, E.T.A. Hoffmann, and Bram Stoker. This book does so by focussing on

religion especially at a time and for a world in which some sectors of the monotheisms are in aggressive and sometimes violent contention against those of other monotheisms and even against other sectors within their own monotheism The chapter on Schelling's uncanny argues that monotheisms come out of polytheism and makes the plea for polytheism central to the whole book It enables rethinking the relationships between mythology and monotheistic and polytheistic religions in a culturally and politically liberatory and progressive way Succeeding chapters consider the uncanny cyborg the uncanny and the fictional and the uncanny and the Commonwealth concluding with a chapter on Taoism as a polytheistic religion Building on the author's previous work in Environmental Humanities and Theologies in bringing together theories of religion and the environment this book will be of great interest to students and scholars of the environmental humanities ecocultural studies and religion
