Drug Courts In Operation Current Research:

Drug Courts in Operation James Joseph Hennessy, 2019-07-18 Examine an innovative strategy for fighting the war on drugs Drug Courts in Operation Current Research provides an in depth look at an increasingly utilized approach to rehabilitating substance abusers Drug courts offer their participants a chance to better themselves by providing support and structure to those that do not have it in their life offering substance abusers a chance to participate in rehabilitation in lieu of incarceration This insightful book examines the history of drug courts as a principal treatment alternative to incarceration outlines the risk factors of children living with drug addicted parents and introduces a program to help strengthen families The book delivers vital information on introducing programs to help prevent narcotic use by children with drug addicted parents the need for cultural and gender specific treatment plans especially in the treatment of women and African American males treatment dosage effects the importance of length of participation to outcomes focus groups designed to help drug court participants with their employment needs predictors of engagement in court mandated treatment programs how legal coercion of high risk patients via the threat of incarceration motivates participants to succeed **Drug Courts in**

Operation James J. Hennessy, 2001 **Drug Courts: Background, Effectiveness, and Policy Issues for Congress**

Celinda Franco, 2010 **Illness Or Deviance?** Jennifer Murphy, 2015-06-12 Is drug addiction a disease that can be treated or is it a crime that should be punished In her probing study *Illness or Deviance* Jennifer Murphy investigates the various perspectives on addiction and how society has myriad ways of handling it incarcerating some drug users while putting others in treatment *Illness or Deviance* highlights the confusion and contradictions about labeling addiction Murphy's fieldwork in a drug court and an outpatient drug treatment facility yields fascinating insights such as how courts and treatment centers both enforce the disease label of addiction yet their management tactics overlap treatment with therapeutic punishment The addict label is a result not just of using drugs but also of being a part of the drug lifestyle by selling drugs In addition Murphy observes that drug courts and treatment facilities benefit economically from their cooperation creating a very powerful institutional arrangement Murphy contextualizes her findings within theories of medical sociology as well as criminology to identify the policy implications of a medicalized view of addiction *Transforming Criminal Justice?* Jane

Donoghue, 2014-04-03 Why is punishment not more effective Why do we have such high re offending rates How can we deal with crime and criminals in a more cost effective way Over the last decade in particular the United Kingdom in common with other jurisdictions such as Canada the United States US and Australia has sought to develop more effective ways of responding to criminal behaviour through court reforms designed to address specific manifestations of crime Strongly influenced by developments in US court specialisation problem solving and specialist courts including domestic violence courts drugs courts community courts and mental health courts have proliferated in Britain over the last few years These courts operate at the intersection of criminal law and social policy and appear to challenge much of the traditional model of

court practice In addition policy makers and practitioners have made significant attempts to try to embed problem solving approaches into the criminal justice system more widely Through examination of original data gathered from detailed interviews with judges magistrates and other key criminal justice professionals in England and Wales as well as analysis of legislative and policy interventions this book discusses the impact of the creation and development of court specialisation and problem solving justice This book will be essential reading for students and academics in the fields of criminology criminal justice criminal law socio legal studies and sociology as well as for criminal justice practitioners and policy makers

Strategies for Work with Involuntary Clients Ronald H. Rooney, Rebecca G. Mirick, 2018-05-01 Often in their careers social workers will encounter clients who are either legally required to attend treatment services or are otherwise coerced or pressured into those services Practitioners in settings from prisons to emergency rooms to nursing homes to child protection agencies will find themselves with involuntary clients In an update to this classic text social workers Ronald H Rooney and Rebecca G Mirick explore the best ways to work with unwilling clients While work with involuntary clients is common it can be challenging frustrating and unproductive unless practitioners are well trained for it This book provides a theoretical framework for understanding the legal ethical and practical concerns when working with involuntary clients offering theory treatment models and specific practice strategies influenced by the best available knowledge Animated by case studies across diverse settings these resources can be used by practitioners to facilitate collaborative effective working relationships with involuntary clients
