with the definitions of the three terms race racism and violence mentioned in the title Regarding to the expressions I want to
say something about the U S history and about the current situation in the United States of America with reference to the
African American people The Oxford Advanced Learner s Dictionary explains race as follows one of the main groups that
humans can be divided into according to their physical differences for example the colour of their skin a group of people who
share the same language history culture etc Racism means the unfair treatment of people who belong to a different race
violent behaviour towards them the belief that some races of people are better than others The history of racism in the
United States of America goes back to 17th century and should have come to an end with the American Civil War 1861 1865
and the abolition of slavery 1865 Unfortunately the abolition of slavery was not the end of the African American martyrdom It
was the beginning of prejudices discrimination violence and struggle When we think of racism against African American
