Drydens Aeneid A Selection With Commentary:

Dryden's Aeneid Virgil, John Dryden, 1986 *Arms, and the Man I sing . . .* Arvid Løsnes, 2011-05-12 This study referred to as a preface is given this designation because its aim is not to offer an up to date overall assessment of Dryden's translation of Virgil's neid but rather to provide a valid basis for such an assessment. In this it seeks to provide a comprehensive analysis of relevant areas i.e. the conditions of expression forming the very basis of the genesis of Dryden's translation and thus a valid understanding of the poetry of R. A. Brower. Alexander Pope *The Poetry of Allusion* London 1968 p. 98 Part One provides a firsthand picture of the background out of which Dryden's translation came into being the tradition of neid translation. The evolution of Dryden's theory of translation and his use of textual sources are discussed through a systematic presentation of the various conditions of expression involved as Dryden took upon himself to render Virgil's neid into English poetry. Part Two presents the relevant aspects of Dryden's conception of Virgil and essential features of the Virgilian epic with reference to the assessments of modern classical scholars and Dryden's own conceptions in these matters. Various analogies historical, political and literary are drawn between the respective periods in which Virgil and Dryden lived to reflect the basic similarity in conditions of expression out of which Virgil's neid and Dryden's translation came into being. *Selected Papers on Ancient Literature and its Reception* Philip Russell Hardie, 2023-08-21 This volume gathers together about two thirds of the articles and essays published between 1983 and 2021 by Philip Hardie whose work on ancient literature has been of seminal importance in the field. The centre of gravity lies in late Republican and Augustan poetry in particular Lucretius, Virgil and Ovid with important contributions on wider Augustan culture, on Neronian and Flavian epic, on the Latin poetry of late antiquity and on the reception of Latin poetry. **The Scriblerian and the Kit-Cats**, 2004 *Dryden [select Poems]* John Dryden, 1901 **John Dryden's Aeneas** Richard Everett Morton, *English Literary Studies*, 2000 **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library, 1988 **Studies in Eighteenth-century Culture** Timothy Erwin, Julie Candler Hayes, 1998 This volume presents a group of essays that evoke broad contexts and future avenues for work in the field of 18th century studies. The contributors take up the question of identity not as a fixed stable property whose boundaries may be confidently mapped but rather as a complex and unpredictable process navigating different discourses and modes of social insertion. They address issues that involve national, linguistic and cultural affiliations or call into question the relation of gender performance to literary persona. **Handbook of English and Celtic Studies in the United Kingdom and Republic of Ireland** N. H. Keeble, 1988 *In Search of the Classic* Steven Shankman, 1994 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors. Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of

literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman s study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Val ry poem *Le Cimeti re marin* and the classic qualities it shares with Pindar s third Pythian ode from which Val ry derives the epigraph for his poem

The Two Worlds of the Poet Robert M. Wilhelm, Howard Jones, 1992 This collection of essays honors Alexander Gordon McKay one of the most respected names in Vergilian studies Written by some of the world s leading scholars the essays offer new perspectives on the larger Vergilian world which Dr McKay s scholarship has so richly illuminated *The Two Worlds of the Poet* focuses primarily on Vergil and Augustan literature and art with several essays that expand the Vergilian theme and reflect the wide research interests of Professor McKay in such areas of classical studies as literature art architecture painting and sculpture Vergil s world presents two faces each inseparable from the other the world which formed the poet and the world which the poet himself created and it is proper that a volume which commemorates a scholar whose own work has elucidated both of these worlds should address itself to each Several essays examine the poet s *modus creandi* his use of the simile his assimilation of the language and motifs of Roman comic drama his exploitation of the rich store of Greek Etruscan and Roman mythological legendary and historical material and his treatment of a variety of themes which touch upon the very essence of the human condition Other essays touch upon various aspects of Vergil s material and cultural environment enabling readers to place his created work in a broader perspective Contributors offer new perspectives on the post classical treatment of Vergilian themes illustrating how the reception of Vergil varied with successive generations The volume concludes with the reflections of the senior statesman of Vergilian criticism upon the scholar s art and mission Vergil knew that to understand the present it was essential to break out of the narrow circle of the moment and to reach into the past thereby affirming our own humanity and our place in the world and finding paths into the future Vergil and his poetry create evocative connections that cut across time and place and culture providing a glimpse at the universal human experience The essays in *The Two Worlds of the Poet* explore Vergil s own struggle to find his place in the world chronicle the pathway by which we gain entry into the world of the poet and examine how the world of the poet has
