Archaeological Testing for the Smithland Pool, Illinois Steven Ahler, Jon Muller, Joel Rabinowitz, 1980 Archaeology of the Lower Ohio River Valley Jon Muller, 2016-12-05 Although it has been occupied for as long and possesses a mound building tradition of considerable scale and interest Muller contends that the archaeology of the lower Ohio River Valley from the confluence with the Mississippi to the falls at Louisville Kentucky remains less well known than that of the elaborate mound building cultures of the upper valley This study provides a synthesis of archaeological work done in the region emphasizing population growth and adaptation within an ecological framework in an attempt to explain the area's cultural evolution **An Archaeological Reconnaissance of the Illinois Portions of the Smithland Pool of the Ohio River** Brian M. Butler, Glen P. Harrell, Mary C. Hamilton, 1979 Archaeological Excavations at the Fitzgibbons Site, Gallatin County, Illinois Cathy A. Robison, 1986 **Mississippian Political Economy** Jon Muller, 2013-11-21 This ambitious work offers a coherent and comprehensive look at the material conditions underlying and stimulating political development in southeastern North America during the Mississippian period After introducing theoretical issues Muller addresses reproduction production distribution and consumption within their social and material contexts Examined through the lens of the production distribution and consumption of prestige and staple goods a profoundly domestic though significantly differentiated Mississippian political economy emerges This study's broad synthetic view ensures that neither environment nor ideology are overemphasized A fine statement of an important theoretical position the volume features considerable graphic and tabular presentation of data **Archaic Societies** Thomas E. Emerson, Dale L. McElrath, Andrew C. Fortier, 2012-02-01 Sweeping and detailed this long awaited volume is an indispensable guide to the Archaic period across the midcontinent Archaeologists throughout the region share the latest excavation results and analytical perspectives to reveal and reinterpret the worlds of those Native peoples who lived there for some 9 000 years up to about 3 000 years ago Of particular concern is the establishment of relative and absolute chronologies for the Archaic period the relationships between the artifacts left behind and the peoples who made and used them and the changing interactions between cultures climate and landscape Archaeologists offer useful up to date overviews of Archaic societies assessment of stratigraphic sequences and detailed discussions of finds and interpretations from the Mississippi and Ohio river regions and the Great Lakes Comprehensive and accessible this landmark book is a must for anyone wanting to understand a crucial but little understood period in North America's prehistory Stone Age Spear and Arrow Points of the Midcontinental and Eastern United States Noel D. Justice, 1987 This is an important new reference work for the professional archaeologist as well as the student and collector Central States Archaeological Journal Justice admirably synthesizes the scientific information integrating it with the popular approach The result is a publication that readers on both sides of the spectrum should enjoy as well as comprehend Choice an indispensable guide to the literature Attractive layout design and printing accent the useful

**Caborn-Welborn** David Pollack,2004-08-19 An important case study of chiefdom collapse and societal reemergence Caborn Welborn a late Mississippian A D 1400 1700 farming society centered at the confluence of the Ohio and Wabash Rivers in what is now southwestern Indiana southeastern Illinois and northwestern Kentucky developed following the collapse of the Angel chiefdom A D 1000 1400 Using ceramic and settlement data David Pollack examines the ways in which that new society reconstructed social political and economic relationships from the remnants of the Angel chiefdom Unlike most instances of the demise of a complex society led by elites the Caborn Welborn population did not become more inward looking as indicated by an increase in extraregional interaction nor did they disperse to smaller more widely scattered settlements as evidenced by a continuation of a hierarchy that included large villages This book makes available for the first time detailed well illustrated descriptions of Caborn Welborn ceramics identifies ceramic types and attributes that reflect Caborn Welborn interaction with Oneota tribal groups and central Mississippi valley Mississippian groups and offers an internal regional chronology Based on intraregional differences in ceramic decoration the types of vessels interred with the dead and cemetery location Pollack suggests that in addition to the former Angel population Caborn Welborn society may have included households that relocated to the Ohio Wabash confluence from nearby collapsing polities and that Caborn Welborn s sociopolitical organization could be better considered as a riverine confederacy
