international drug trafficking and use The set provides special coverage of shifting societal and legislative perspectives on marijuana as evidenced by Colorado and Washington legalizing marijuana with the 2012 elections *Families Affected by Addiction* Gallus Bischof, Richard Velleman, Jim Orford, Abhijit Nadkarni, Marcela Tiburcio, 2025-05-06 This Open Access book sheds new light on the wide range of Affected Family Members experiences At a conservative estimate there are at least 100 million adults across the globe who are affected by their relatives addiction problems These Affected Family Members AFMs experience multiple stresses coping dilemmas and a lack of information and support and are at heightened risk for ill health The results are very costly both from the personal and from the public services point of view The volume elaborates on the barriers to providing effective help including political neglect under representation in both policy and service delivery models the lack of involvement and encouragement from health and social care professionals the stigmatisation and bias as barriers to care and the range of evidence based interventions It also explores the similarities and differences of all of these areas depending on the type of addiction problem that the family is affected by alcohol illicit drugs gambling etc While covering the more commonly reported work in high income countries the contributions put strong emphasis on the experience of AFMs in low and middle income countries Given its truly global approach the book will be a key resource for practitioners policymakers and researchers alike *Al-Anon Narratives* Grazyna Zajdow, 2002-08-30 According to the author in Australia men drink alcohol as a mark of masculinity and women take care of drinking men as a part of normative femininity And while research on alcoholics and alcoholism is common very few studies consider the lives of the women who are married to alcoholics Here Zajdow details and explores the lives of such women who belong to Al Anon where they may share their experiences and offer their stories in a nonthreatening and supportive environment The author presents the narratives of these women in the context of her analysis of the self help group to demonstrate how people construct and reconstruct their lives as coherent stories about themselves and to show how these self stories can be changed and reconceptualized within the context of the group Unique in its examination of self stories offered within a self help group this book challenges sociological knowledge about the way these mutual aid groups operate as communities of interest and help Zajdow begins by laying the groundwork through a discussion of the professional and lay discourses on women s relationships to alcoholic men She then provides the basis for using self stories to examine a group of people the individuals in the group and the behavior of the group in general A history of Al Anon as a self help group is also detailed and the author compares the Australian meetings to meetings in other parts of the world The stories themselves are then examined and discussed in terms of how they relate to group processes and individual change through Al Anon Tracing the way that these women move from a place of despair to one of hope and meaningful change this also represents a sociological exploration of gender families and communities *Praying in Color: Drawing a New Path to God* Sybil MacBeth, 2019-12-16 Join the 150 000 people who have discovered a way to pray with the right side of the brain Praying in Color forever changed the way people pray and will

change your life too Maybe you love color Maybe you are a visual or kinesthetic learner a distractible or impatient soul or a word weary pray er Perhaps you struggle with a short attention span a restless body or a tendency to live in your head Maybe your prayers feel more like a list for Santa Claus than a love letter to God or you re just bored with the same old prayers you ve said since you were a toddler Maybe you re not sure that anyone out there is listening or you just feel deep in your bones a hunger to know God better The prayer practice Praying in Color was born when Sybil s desperation to pray for family and friends intersected with her love of color and doodling Praying in Color invites the whole body into prayer and gives you a new way to be with God This revised expanded edition of the bestselling groundbreaking book Presents double the wisdom and insight from Sybil MacBeth from fifteen years of experience praying teaching and leading workshops Includes a foreword by Lauren F Winner author of Girl Meets God Brings a sense of fun and delight into prayer time Gathers our mind body emotions thoughts and spirit into the same space for a while Is ideal for praying on your own or in small groups church fellowships hospital rooms university classrooms prison ministry elementary schools and so much more Sections of the book include Disgruntled Prayers Praying Your To Do List Praying for Our Enemies Hodgepodge Prayers Twelve Step Prayers Praying with Scripture Praying the Liturgical Year Praying in Community Sending and Sharing Prayers And so much more It would not be an overstatement to say that Praying in Color rescued my devotional life from nonexistence I ve given away more copies of this book than I can count Lauren F Winner **Twelve Step Programs** Ann Marie Minnick,1997-11-30 Twelve Step Programs are significant features in the American landscape Their popularity compels us to take them seriously This book studies one such program Al Anon which was founded in 1951 by wives of alcoholics who were struggling with the effects of alcoholism on themselves and their families In the 1990s its scope was broadened to include husbands grown children lovers friends and anyone else affected by another s drinking or chemical use This study used an ethnographic approach it reveals that Al Anon and similar groups act as sites of spiritual renewal and moral reconstruction for primarily white middle class middle aged Protestant Americans who report experiencing a crisis of identity Investigating Twelve Step Programs lends further insight into the cultural crisis affecting many Americans as well as the strategies some have found to make sense of their lives **A Disease of One's Own** John Steadman Rice,2017-11-30 In the present decade co dependency has sprung up on the landscape of American popular culture Portrayed as an addiction like disease responsible for a wide range of personal and social problems co dependency spawned a veritable social movement nationwide A Disease of One s Own examines the phenomenon of co dependency from a sociological perspective viewing it not as something a person has but as something a person believes not as a psychological disease but as a belief system that offers its adherents a particular way of talking about the self and social relationships The central question addressed by the book is Why did co dependency one among a plethora of already existing discourses on self help meet with such widespread public appeal Grounded in theories of cultural and social change John Steadman Rice argues that this

question can only be adequately addressed by examining the social cultural and historical context in which co dependency was created and found a receptive public the content of the ideas it espoused and the practical uses to which co dependency s adherents could apply those ideas in their everyday lives In terms of the larger American context his analysis links the emergence of co dependency with the permeation of psychological concepts and explanations throughout Western culture over the past thirty years focusing particularly on the cultural and social impact of the popular acceptance of what the author calls liberation psychotherapy Liberation psychotherapy portrays the relationship between self and society as one of intrinsic antagonism and argues that psychological health is inversely related to the self s accommodation to social expectations Rice argues that a principal source of co dependency s appeal is that it affirms core premises of liberation psychotherapy thereby espousing an increasingly conventional and familiar wisdom It simultaneously fuses those premises with addiction related discourse providing people with a means of making sense of the problems of relationship and identity that have accompanied what Rice terms the psychologization of American life This brilliant analysis of the phenomenon of co dependency will be of interest to psychologists sociologists psychotherapists and those interested in American popular culture
