Alberto Carneiro:

Alberto Carneiro, **Alberto Carneiro** Alberto Carneiro, Galería Trinta, 2006 **Portuguese Artists in London** Leonor de Oliveira, 2019-12-06 This book centres on four Portuguese artists' journeys between Portugal and Britain and aims at rethinking the cultural and artistic interactions in the post-war Europe, the shaping of new identities within a context of creative experimentalism and transnational dynamics and the artistic responses to political troubles. Leonor de Oliveira examines the contributions of the work of Paula Rego, Barto dos Santos, João Cutileiro and Jorge Vieira among other artists to shape referential images of Portuguese identity that not only responded to the purpose of breaking with dominant iconographic and aesthetic representations but also incorporated a critical perspective on contemporaneity. This title will appeal to scholars interested in art history, Portuguese and European art and the mid-twentieth century art scene.

Critical Cartography of Art and Visuality in the Global Age Anna Maria Guasch Ferrer, Nasheli Jimenez Val, 2014-10-17 *Critical Cartography of Art and Visuality in the Global Age* poses fundamental questions and pinpoints topical discussions central to the field of contemporary art studies in the global age. Resulting from a series of conversations that took place at the international conference *Critical Cartography of Art and Visuality in the Global Age* Barcelona 2013, the volume brings together current debates in cultural and identity-based art histories as a means of expanding the territory of contemporary art. [Brief Guide to the Portuguese Art Collection of the Modern Art Centre](#) Centro de Arte Moderna José Azeredo Perdigão, 1996 [Composing Worlds: Humanities, Health and Wellbeing in the XXI Century Towards a More Sustainable World](#) Walter Leal Filho, Hélder S. Lopes, Marina Prieto Lencastre, Rui Estrada, Diogo Vidal, 2025-05-26 This book provides an interdisciplinary exploration of how the humanities, social sciences and health sciences can contribute to addressing the pressing challenges of the Anthropocene. From climate change and biodiversity loss to environmental degradation and public health threats, the book examines the interconnected crises of our time and offers innovative frameworks for fostering sustainability, resilience and equity. It highlights the cultural, ethical and philosophical dimensions of these issues to underscore the importance of collaboration across disciplines to shape a just and sustainable future. Key topics include the role of art, literature and philosophy in raising environmental awareness, the impact of urban green spaces on social participation and health, and the integration of mental health into sustainability discussions. The book also explores eco-anxiety, digital technologies and citizen science as pivotal aspects of contemporary socio-environmental challenges. Through case studies and theoretical insights, it demonstrates the value of combining scientific expertise with cultural and ethical understanding to create effective solutions for global and local problems. This book is a valuable resource for researchers, students, policymakers and practitioners in the humanities, social sciences, health and environmental studies. It invites readers to rethink their relationship with nature and society while inspiring transformative actions that prioritize sustainability and equity. Whether addressing global crises or local community initiatives, this work offers practical insights and fresh
